DISTRICT ONE-PAGER

K-12, one mascot. Thirteen years, one question.

A standards-aligned entrepreneurship and financial-literacy curriculum for the curriculum directors, social-studies coordinators, and business-ed leads who have to defend an adoption to a board.

The 30-second elevator (district-specific)

Your district already has pieces — a Junior Achievement day in 5th grade, an EVERFI module in 9th, a personal-finance elective in 11th. Cash to Company is the connective tissue. One continuous mascot from kindergarten through twelfth grade. One question, asked patiently for thirteen years: which people, and how do you know? A Capstone artifact every year that builds on the last. Aligned to Jump$tart, CEE, CCSS, C3, CASEL, and NGSS-ETS. Designed to slot beside what your teachers already use, not replace it.

What students will be able to do (5 outcomes, measurable)

1. **Identify** a real customer and the problem they need solved — by Grade 3 in their own words, by Grade 11 with a written persona pack and five interview transcripts.
2. **Calculate** cost, revenue, contribution margin, and break-even — Grade 5 at the lemonade-stand level, Grade 8 with a working calculator, Grade 11 with a 12-month cash-flow forecast.
3. **Defend** a business decision in writing using evidence — Grade 4 with a one-page plan, Grade 9 with a Business Model Canvas, Grade 12 with a portfolio defense and Launch-or-Learn memo.
4. **Run** an operating routine — SOP, RACI, weekly stand-up, debrief — starting in Grade 6 and compounding through Grade 12.
5. **Revise** their own thinking based on customer evidence — Grade 7 with a Day-1-vs-Day-30 letter, Grade 8 with a PDSA cycle, Grade 11 with a six-week venture sprint and weekly variance.

Standards alignment (verbatim citations)

Pulled from the Cash to Company Standards Alignment Map. A district adoption committee can verify every cell.

- **Jump$tart Standard 1 (Spending and Saving), Benchmark 4-1:** Distinguish between needs and wants. (Centered Grade K.)
- **Jump$tart Standard 3 (Employment and Income), Benchmark 4-3:** Describe entrepreneurship and how people start small businesses. (Centered Grade 3.)
- **Jump$tart Standard 6 (Financial Decision Making), Benchmark 8-1:** Apply systematic decision making to a medium-term financial goal. (Centered Grade 6.)

DISTRICT ONE-PAGER

- **CEE Standard 1 (Earning Income), Grade 8:** People who own and run their own business take risks but also have the potential for higher rewards. (Centered Grade 6 with continuity through Grade 12.)
- **CCSS-Math 7.RP.A.3:** Use proportional relationships to solve multistep ratio and percent problems. (Centered Grade 7 in per-customer revenue and contribution margin.)
- **C3 D2.Eco.10.3-5:** Explain why individuals, businesses, and governments specialize. (Centered Grade 3.)
- **NGSS-ETS MS-ETS1-1:** Define the criteria and constraints of a design problem with sufficient precision. (Centered Grade 7 in customer problem statements.)
- **CASEL Responsible Decision-Making:** Evaluating consequences across all 13 grades.

The full grade-by-grade map is available as a separate document; districts typically request it during week-2 review.

Differentiation — Title-I, ELL, IEP/504, advanced

- **Title-I friendly.** All materials are printable. No required tech stack. The Monday opener works on a chalkboard and a copy machine.
- **ELL.** Spanish translations available for the Mexico and Latin Spanish bands; teacher-facing scripts include sentence stems for emerging language learners. Cash speaks slowly, repeats the canonical question, and uses concrete-before-abstract sequencing.
- **IEP / 504.** The Capstone artifacts are scaffolded by grade band, with single-point rubrics that allow accommodations without lowering the bar. Visual supports built in. Voice-over transcripts published alongside every video.
- **Advanced learners.** The Capstone arc is open-ended at the top: a Grade 11 student can carry a venture into Grade 12 with mentor pairing; a Grade 5 student can run a real Market Day stand for peers and family.
- **Sensitivity Policy.** No family-money probing, no guaranteed-outcome claims, no political content. The 15-banned-phrases card is publicly visible.

Implementation footprint

- **Time.** 5-minute Monday opener. 30-40 minute Wednesday work block. 15-minute Friday share-out. Total weekly footprint: roughly 50-60 minutes inside an existing social-studies, business-ed, or advisory block.
- **Materials.** Printable PDFs, eight short videos per grade, six classroom documents per grade. Optional plush and pin program.
- **Teacher PD.** The Cash Certified Teacher onboarding is a 2-hour asynchronous certificate-bearing module, plus a Year-1 mentor pairing with a Year-2 teacher. Most districts complete cohort onboarding in two weeks.

DISTRICT ONE-PAGER

- **Tech footprint.** None required. Works with whatever LMS, video player, or printer the district already runs.

Capstone visibility — what families and admins see

Every grade ends with an artifact a family can hold or watch:

- **K-2** — a finished thing the kid made at the classroom store, plus a one-line "what I'd change next time."
- **3-5** — a Market Day with a 30-second pitch and a debrief signed by the student.
- **6-8** — a one-month ledger, an SOP, a break-even calculator, and a Day-30 evidence letter.
- **9-12** — a Business Model Canvas, a 12-month cash flow, an investor-style pitch, and a Grade-12 portfolio defense.

The Capstone Defense is a public-facing event the principal, board, and families are invited to. The framing is "what did you learn?" — never "would I invest?"

Three objections we hear, and the response

"We already use Junior Achievement." Add, don't switch. JA gives your students a day. Cash gives them the year. The JA volunteer-led module fits beautifully as the Friday share-out anchor in a Cash week. Most JA districts that pilot Cash see complementary engagement, not displacement.

"Our teachers can't be entrepreneurship experts." They don't have to be. The Monday opener is five minutes and scripted. The Wednesday work block has a teacher-facing playbook for every activity. The Cash Certified Teacher PD is two hours, asynchronous, and certificate-bearing. We designed for routines, not heroics.

"How do we know it works? You don't have an RCT yet." Correct, and we say so plainly. Pilot evidence study underway Fall 2026 — N=300, Jump$tart pre/post. What we can show today: standards alignment receipts, the Capstone arc end to end, and the Sensitivity Policy. We'd rather under-claim and over-deliver than ship a study we'd be embarrassed by in three years.

Pilot pathway — what week 1 looks like

A typical district pilot starts in 1-3 schools, one grade band each, for one semester.

- **Week 1.** Cash Certified Teacher PD (asynchronous, completed in the teacher's own pacing). District lead reviews the Standards Alignment Map and Sensitivity Policy.
- **Week 2.** First Monday opener runs in the pilot classrooms. Wednesday work block follows. Family welcome letter goes home.

DISTRICT ONE-PAGER

- **Week 4.** First Capstone milestone check. District lead sees student artifacts.
- **Week 8.** Mid-pilot review. Voice-band drift check. Family feedback compiled.
- **Week 16.** End-of-semester portfolio review. Decision: extend to additional grades, hold steady, or step back.

We share what works and what didn't with equal honesty. Being wrong on Day 1 is the deal.

Next step

Request the Standards Alignment Map (full grade-by-grade), the Capstone Progression document, and a 30-minute discovery call with your district curriculum lead.

— The Cash to Company team. K-12, one mascot. Which people, and how do you know?

One promise.

K–12, one mascot. Which people, and how do you know?

Cash to Company is built so a curriculum coordinator, a foundation officer, a parent, or a teacher can pick up any one of these references and meet the program at full strength on the first page.

No promise of wealth. No probing of family finances. No partisan content. One question, asked patiently for thirteen years: which people, and how do you know?

For educational and operational use. This document is informational and does not constitute financial, legal, or tax advice. Standards alignment is cited per the Cash to Company Standards Alignment Map (Jump$tart, CEE, CCSS, C3, CASEL, NGSS-ETS).
