STATE DOE ONE-PAGER

A K-12 entrepreneurship and financial-literacy curriculum that satisfies state mandate language without sponsor entanglement.

For state DOE adoption committees, CTE leadership, and financial-literacy mandate authors evaluating instructional resources for board approval and statewide listing.

The 30-second elevator (state-DOE-specific)

Twenty-five US states now require financial literacy for high-school graduation; a growing subset extend the requirement K-8. Cash to Company is the only K-12 curriculum that pairs entrepreneurship with financial literacy under one continuous mascot, asks one question for thirteen years — which people, and how do you know? — and operates with no sponsor relationship that could shape what students are taught about banks, insurers, or financial products. Aligned to Jump$tart, CEE, CCSS, C3, CASEL, and NGSS-ETS. Designed to be defensible at a board meeting and useful in a Title-I classroom on the same day.

What state-listed adoption gets you (5 outcomes, measurable)

1. **Coverage of the financial-literacy mandate K-12** — every Jump$tart and CEE benchmark we center is cited in the Standards Alignment Map, not asserted in a marketing line.
2. **An entrepreneurship strand alongside the financial-literacy strand** — useful for states aligning to C3 economics standards or CTE pathway entry points without procuring a second curriculum.
3. **A Capstone artifact every year, K through 12** — the artifact set forms a longitudinal portfolio that a district can show a state monitor at any grade.
4. **A Sensitivity Policy that handles equity, family-money, and political content explicitly** — written, public, defensible at a board meeting.
5. **A teacher PD pathway that produces certificate-bearing Cash Certified Teachers** — countable as PD hours in most state-DOE renewal frameworks.

Standards alignment (verbatim citations from the Standards Alignment Map)

- **Jump$tart Standard 1 (Spending and Saving), Benchmark 4-1:** Distinguish between needs and wants. (Grade K.)
- **Jump$tart Standard 1, Benchmark 4-3:** Outline a plan for buying a needed or wanted item. (Grade 4, extended to a small business plan.)
- **Jump$tart Standard 1, Benchmark 4-4:** Develop a basic spending plan with set income and prioritized expenses. (Grade 5.)

STATE DOE ONE-PAGER

- **Jump$tart Standard 3 (Employment and Income), Benchmark 4-1, 4-2, 4-3, 4-4:** Identify forms of income; describe how people use income; describe entrepreneurship; identify factors that influence income earned. (Grades K-5.)
- **Jump$tart Standard 6 (Financial Decision Making), Benchmark 4-1, 4-2, 4-3, 8-1, 8-3:** Identify costs and benefits; use a basic decision-making process; apply decision-making steps; apply systematic decision making to a medium-term financial goal; identify the role of emotion in financial decisions. (Grades 2 through 8.)
- **CEE Standard 1 (Earning Income), Grades 4 and 8:** Workers can improve their ability to earn income; people who own and run their own business take risks but also have the potential for higher rewards.
- **CEE Standard 2 (Buying Goods and Services), Grades 4 and 8:** Comparison shopping; sellers and outside reviewers; informed choices.
- **CCSS-Math K.MD.A.2 → 5.NBT.B.7 → 7.RP.A.3 → HSA-CED.A.2:** Counting and comparing through ratio, proportion, and equation modeling — applied to coin recognition, target-margin pricing, contribution margin, and break-even.
- **CCSS-ELA W.2.2 / W.4.4 / W.7.7 / W.11-12.4:** Informative writing through research-based writing — applied to Problem→Idea cards, one-page plans, customer interview write-ups, and the Grade-12 Launch-or-Learn memo.
- **C3 D2.Eco.1.K-2 through D2.Eco.15.9-12:** Scarcity, specialization, supply and demand, profit, market structure — full K-12 economics dimension.
- **CASEL** — five competencies represented across grades.
- **NGSS-ETS K-2-ETS1-1, 3-5-ETS1-1, 3-5-ETS1-2, MS-ETS1-1, HS-ETS1:** Engineering design progression applied to product and process design.

The Standards Alignment Map is a 30-page companion document with verbatim benchmark text and grade-level citation. It is the single source a state adoption reviewer can use to confirm fit.

Differentiation — equity, ELL, IEP/504, advanced

- **Equity-by-design.** Materials are printable; mascot is gender-neutral and race-neutral; the Sensitivity Policy explicitly forbids family-money probing. Designed for any classroom — Title-I, suburban, rural, urban, charter.
- **ELL.** Spanish translations available in Mexico and Latin Spanish bands. Teacher scripts include sentence stems. Captions on every video. Transcripts published alongside.
- **IEP / 504.** Single-point rubrics support accommodations. Visual supports embedded. Concrete-before-abstract sequencing across all 13 grades.
- **Advanced learners.** Open-ended Capstones. Mentor pairing for advanced Grade-11 ventures into Grade 12.
- **No sponsor.** No bank, insurance, or financial-services company underwrites or shapes the content. Important when a state is reviewing for vendor neutrality.

STATE DOE ONE-PAGER

Implementation footprint at scale

- **Time.** 50-60 minutes weekly per classroom. Fits inside existing social-studies, advisory, or CTE pathway blocks.
- **Materials.** Printable PDFs; eight videos per grade; six docs per grade. No required tech stack.
- **Teacher PD.** 2-hour asynchronous certificate-bearing Cash Certified Teacher module. Year-1 teachers paired with Year-2 mentors. Most districts onboard in two weeks; states have onboarded multi-district cohorts in a single semester.
- **Reporting.** Districts can produce Capstone-portfolio reports for state monitoring at any grade band.

Capstone visibility for state monitoring

The Capstone arc compounds year over year. By Grade 12 a graduate has run an idea through every stage of the founder's lifecycle: noticing, ideation, customer evidence, modeling, financing, operating, leading, selling, and deciding. State monitors can review at any grade band:

- **K-2** — finished classroom-store artifact + one revision sentence.
- **3-5** — Market Day pitch + signed debrief.
- **6-8** — one-month ledger + SOP + break-even + Day-30 letter.
- **9-12** — Business Model Canvas + cash-flow forecast + portfolio defense + Launch-or-Learn memo.

Three objections we hear at the state level, and the response

"We need vendor neutrality. Are you backed by a financial-services sponsor?" No. Cash to Company has no sponsor relationship and no advertising relationship. We do not place third-party content in front of students. The "no sponsor, no ads, no monetization of students" stance is in our license language and in our Sensitivity Policy. We say what the evidence says — including, when warranted, things a sponsor wouldn't want said about banks, insurers, or financial products.

"How does this fit our state's existing CTE pathway?" The K-8 financial-literacy strand satisfies the typical mandate language; the 9-12 entrepreneurship strand maps to CTE Business and Marketing pathway entry courses. The Capstone Progression document shows the explicit handoff between bands. Most states find Cash slots beside an existing CTE adoption rather than replacing it.

"What's your evidence base?" We do not yet have an RCT. We say so. The pilot evidence study is underway Fall 2026 — N=300, Jump$tart pre/post — and we will publish results, including null

STATE DOE ONE-PAGER

findings, when the data is in. What we can show now: standards alignment, Sensitivity Policy, the Capstone arc, and the public 15-banned-phrases card.

State adoption pathway — what semester 1 looks like

- **Month 1.** Standards Alignment Map and Sensitivity Policy reviewed by adoption committee. License terms reviewed by state counsel.
- **Month 2.** Three-district pilot identified — typically one urban, one suburban, one rural — with one grade band each.
- **Month 3.** Cash Certified Teacher PD cohorts complete onboarding. First Monday opener runs.
- **Month 4-5.** Mid-pilot review. Capstone milestone check.
- **Month 6.** End-of-semester portfolio review. State adoption committee decision: list, conditional list, or decline.

We share what worked and what didn't with equal honesty.

Next step

— The Cash to Company team. K-12, one mascot. No sponsor. No ads. No monetization of students.

One promise.

No sponsor. No ads. No monetization of students.

Cash to Company is built so a curriculum coordinator, a foundation officer, a parent, or a teacher can pick up any one of these references and meet the program at full strength on the first page.

No promise of wealth. No probing of family finances. No partisan content. One question, asked patiently for thirteen years: which people, and how do you know?

For educational and operational use. This document is informational and does not constitute financial, legal, or tax advice. Standards alignment is cited per the Cash to Company Standards Alignment Map (Jump$tart, CEE, CCSS, C3, CASEL, NGSS-ETS).
