PRIVATE SCHOOL ONE-PAGER

A K-12 entrepreneurship and financial-literacy program built for schools that own their academic identity.

For heads of school, deans of academics, and curriculum chairs at independent, parochial, and charter schools choosing what their graduates will be able to defend at age eighteen.

The 30-second elevator (private-school-specific)

You teach your community's values, not a sponsor's brand priorities. Cash to Company is the K-12 entrepreneurship and financial-literacy curriculum that fits inside a school owning its academic identity. One continuous mascot from kindergarten through twelfth grade, one question — which people, and how do you know? — and a Capstone artifact every year that builds toward a Grade-12 portfolio defense your trustees would recognize as senior thesis-level work. Aligned to Jump$tart, CEE, CCSS, C3, CASEL, and NGSS-ETS. No sponsor. No ads. No monetization of students. Translatable for parochial, classical, Reggio, Montessori-extension, and IB-leaning programs without losing the spine.

What your graduates will be able to do (5 outcomes, measurable)

1. **Articulate** a customer's problem in writing — Grade 4 in one sentence; Grade 11 in a five-interview persona pack defended at a panel.
2. **Build** a complete startup financial pack — Grade 12 P&L, cash flow, balance-sheet sketch, runway, unit economics — and explain each line.
3. **Run** a venture sprint with weekly variance — Grade 11 six-week sprint with daily standups and a Friday share-out, scaling from earlier years' cadences.
4. **Decide and defend** — Grade 12 Launch-or-Learn memo: launch the venture, shelve it, or transfer it to a peer, with reasons.
5. **Write** a Founder's Leadership Statement — Grade 12 — describing the kind of leader they intend to be and the evidence they have so far.

Standards alignment (verbatim citations)

Useful for parochial schools accrediting through state frameworks, charters meeting authorizer terms, and independents publishing scope-and-sequence to families.

- **Jump$tart Standard 3 (Employment and Income), Benchmark 4-3:** Describe entrepreneurship and how people start small businesses. (Grade 3.)

PRIVATE SCHOOL ONE-PAGER

- **Jump$tart Standard 6 (Financial Decision Making), Benchmark 8-1:** Apply systematic decision making to a medium-term financial goal. (Grade 6.)
- **CEE Standard 1 (Earning Income), Grade 8:** People who own and run their own business take risks but also have the potential for higher rewards. (Grade 6 with continuity through Grade 12.)
- **CCSS-Math 7.RP.A.3:** Use proportional relationships to solve multistep ratio and percent problems. (Grade 7 — per-customer revenue and contribution margin.)
- **CCSS-ELA W.11-12.4:** Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. (Grade 12 — Launch-or-Learn memo.)
- **C3 D2.Eco.10.3-5:** Explain why individuals, businesses, and governments specialize. (Grade 3.)
- **NGSS-ETS HS-ETS1:** Engineering design at the high-school level — applied to product and process design across Grades 9-12.
- **CASEL Self-Awareness, Responsible Decision-Making, Social Awareness:** Across all 13 grades.

Differentiation — community fit, mission fit, value fit

- **Mission alignment.** The Sensitivity Policy explicitly forbids family-money probing — important for parochial communities where family stewardship is a private matter, and for independents where socioeconomic range across the student body is wide.
- **No political content.** Cash teaches which people, and how do you know? — not partisan commentary on markets or policy. Trustees and families across the political spectrum can preview every video before adoption.
- **No sponsor, no ads.** Independent and parochial schools rarely accept sponsor-funded curriculum because of the implicit brand-coding it carries. Cash carries none.
- **Translatable to your pedagogy.** Classical schools have used the Capstone progression as a senior thesis spine. Reggio-leaning K-2 has used the helpers wall and notice-with-me framings. Montessori extension has folded the Wednesday work block into the prepared environment. IB schools have mapped the Grade 11-12 sprint and portfolio to Personal Project / EE expectations.
- **Equity within the school.** Even in tuition-bearing schools, financial-aid families benefit from a curriculum that doesn't assume household disposable income or asset-class familiarity.

Implementation footprint

- **Time.** 5-minute Monday opener, 30-40 minute Wednesday work block, 15-minute Friday share-out. Total weekly footprint: roughly 50-60 minutes inside an existing social studies, character, advisory, or business block.
- **Materials.** Printable PDFs, eight videos per grade, six docs per grade. Optional plush and pin program. Optional Capstone showcase event format.

PRIVATE SCHOOL ONE-PAGER

- **Teacher PD.** 2-hour asynchronous certificate-bearing Cash Certified Teacher module. Year-1 teachers paired with Year-2 mentors. Independent schools have onboarded a 6-teacher cohort in a single in-service week.
- **Tech footprint.** None required. Compatible with whatever video, LMS, or print stack your school already runs.

Capstone visibility — what families and trustees see

Independent-school families pay for what they can see. Cash makes the academic spine visible:

- **Lower School (K-2)** — a finished classroom-store artifact and a "what I'd change" sentence.
- **Lower School (3-5)** — a Market Day with a 30-second pitch and a signed debrief, family invited.
- **Middle School (6-8)** — a one-month ledger, an SOP, a break-even calculator, and a Day-30 customer-evidence letter.
- **Upper School (9-12)** — a Business Model Canvas, a 12-month cash flow, an investor-style pitch in Grade 11, and a Grade-12 portfolio defense with a Founder's Leadership Statement and a Launch-or-Learn memo.

The Grade-12 Capstone Defense is suitable for trustee, alumni, and donor audiences — and is structurally similar to a senior thesis defense.

Three objections we hear from independents and parochials, and the response

"We have a strong economics or finance elective already. Why add a K-12 program?" Your elective is doing the work it does at the grade it does it. Cash adds the connective tissue across the other twelve years. A Grade-11 student arriving at your finance elective from a Cash track has already built a Business Model Canvas, run five customer interviews, and drafted a one-year P&L in Grade 9. The elective deepens; Cash builds the runway.

"Our community is wary of curriculum with branded mascots." Cash is a gender-neutral animated coin who asks one question for thirteen years. There is no sponsor behind the mascot. There is no merchandise sold to students. The plush and pin program is opt-in, classroom-mediated, and not advertised to children. The Cash Mascot Style Guide and Sensitivity Policy are available for trustee review.

"Will this conflict with our religious or philosophical formation?" The curriculum does not address theology, partisan politics, or family wealth values. It teaches one operational question — which people, and how do you know? — and the math, writing, and decision-making that flow from it. Heads of parochial schools have integrated Cash beside Catholic Social Teaching, classical virtue formation, Quaker simplicity testimonies, and Jewish ethical frameworks without conflict. We've also been declined, with thanks, by communities for whom any market-facing curriculum is out of step. Both responses are reasonable.

PRIVATE SCHOOL ONE-PAGER

Pilot pathway — what week 1 looks like

- **Week 1.** Cash Certified Teacher PD completed by a 2-6 teacher cohort. Curriculum chair reviews the Standards Alignment Map and Sensitivity Policy. Trustee preview of one full grade's video set.
- **Week 2.** First Monday opener runs in pilot classrooms. Family welcome letter goes home.
- **Week 4.** First Capstone milestone artifact reviewed by the curriculum chair.
- **Week 8.** Mid-pilot review. Voice-band drift check. Family feedback compiled.
- **Week 16.** End-of-semester portfolio review with trustees if requested. Decision: extend to additional grade bands, hold steady, or step back.

Next step

Request the Cash Mascot Style Guide, the Sensitivity Policy, a sample Grade-12 portfolio defense recording, and a 30-minute call with your head of school or curriculum chair.

— The Cash to Company team. K-12, one mascot. The debrief is the grade.

One promise.

The debrief is the grade.

Cash to Company is built so a curriculum coordinator, a foundation officer, a parent, or a teacher can pick up any one of these references and meet the program at full strength on the first page.

No promise of wealth. No probing of family finances. No partisan content. One question, asked patiently for thirteen years: which people, and how do you know?

For educational and operational use. This document is informational and does not constitute financial, legal, or tax advice. Standards alignment is cited per the Cash to Company Standards Alignment Map (Jump$tart, CEE, CCSS, C3, CASEL, NGSS-ETS).
