> Routines, not heroics. K-12, one mascot.

A K-12 entrepreneurship and financial-literacy spine your co-op can teach in any week, in any order, with any age range in the room.

For homeschool co-op coordinators, learning-pod founders, and microschool leaders building a multi-age, multi-family weekly rhythm.

The 30-second elevator (homeschool-specific)

Your co-op or pod has a 7-year-old, an 11-year-old, and a 14-year-old in the same Wednesday session. Most curricula assume one age, one grade, one classroom. Cash to Company is the K-12 entrepreneurship and financial-literacy curriculum with one continuous mascot across all 13 grades — which people, and how do you know? — so the 7-year-old is on Grade 2, the 11-year-old is on Grade 6, and the 14-year-old is on Grade 9, and they are all watching the same character ask the same question at three different depths. Aligned to Jump$tart, CEE, CCSS, C3, CASEL, and NGSS-ETS. No sponsor. No ads. Designed for printable, kitchen-table, and pod-room delivery.

What a homeschool community gets (5 outcomes, measurable)

1. **One mascot, all ages.** A 5-year-old and a 17-year-old can be in the same room watching different videos and asking the same question — which people, and how do you know? — at age-appropriate depth.
2. **A Capstone every year, multi-age friendly.** Older students mentor younger students through Capstone artifacts; the Grade-11 mentor running a six-week venture sprint can pair with Grade-3 lemonade-stand math without breaking either.
3. **A printable, no-tech-required spine.** Co-op coordinators can run a year of Cash on a printer, a borrowed projector, and a notebook. Tech-light pods stay tech-light.
4. **A weekly rhythm parents can run at home.** Monday opener (5 min), Wednesday work block (30-40 min), Friday share-out (15 min). Translates to a co-op meeting day plus parent-led at-home days.
5. **A Capstone showcase format that doubles as your end-of-year community event.** Pitch night, Market Day, or Defense Day — the Capstone Progression document gives the format for every grade band.

Standards alignment (verbatim citations)

Useful for homeschool families filing portfolio assessments in states that require them, and for charters or umbrella schools serving homeschool communities.

- **Jump$tart Standard 1 (Spending and Saving), Benchmark 4-1:** Distinguish between needs and wants. (Grade K.)
- **Jump$tart Standard 3 (Employment and Income), Benchmark 4-3:** Describe entrepreneurship and how people start small businesses. (Grade 3.)
- **Jump$tart Standard 6 (Financial Decision Making), Benchmark 8-1:** Apply systematic decision making to a medium-term financial goal. (Grade 6.)
- **CEE Standard 1 (Earning Income), Grade 8:** People who own and run their own business take risks but also have the potential for higher rewards.
- **CCSS-Math 3.OA.D.8, 5.NBT.B.7, 7.RP.A.3:** Multi-step word problems, decimal operations, and proportional reasoning — applied to cost / revenue / profit, target-margin pricing, and contribution margin.
- **CCSS-ELA W.4.4, W.7.7:** Coherent writing and short research projects — applied to one-page plans and customer interview write-ups.
- **C3 D2.Eco.1.K-2 through D2.Eco.10.3-5:** Scarcity, supply and demand, profit, specialization.
- **NGSS-ETS K-2-ETS1-1, 3-5-ETS1-2, MS-ETS1-1:** Engineering design progression.
- **CASEL Self-Awareness, Relationship Skills, Responsible Decision-Making.**

The Standards Alignment Map is a 30-page companion document; homeschool parents have used it to document portfolio compliance in states with reporting requirements.

Differentiation — multi-age, multi-faith, multi-family

- **Multi-age friendly.** The Capstone arc is designed so older students mentor younger ones — a documented strength of the K-12 mascot continuity model. A Grade-9 student with a Business Model Canvas pairs naturally with a Grade-3 student with a logo and a price.
- **No required curriculum stack.** You don't need to be teaching a specific math, ELA, or social-studies program. Cash slots beside whichever spine your co-op uses (Charlotte Mason, classical, Sonlight, BookShark, Beautiful Feet, Memoria Press, eclectic).
- **Sensitivity Policy.** No family-money probing — important when your co-op spans wide socioeconomic range or different beliefs about money. No political content, no guaranteed-outcome claims.
- **Equity within the co-op.** Printable PDFs work as well at a kitchen table as they do at a chartered learning pod. Not gated behind subscription tech.
- **Faith-flexible.** Cash teaches the operational question, not theology. Catholic, Protestant, Jewish, Muslim, secular, and unschooling families have all run Cash without conflict — and we have

been declined, with thanks, by families for whom any market-facing curriculum is out of step. Both are reasonable.

Implementation footprint for a co-op or pod

- **Time.** 50-60 minutes weekly per student. Co-op meeting day handles Wednesday work block and Friday share-out; Monday opener can run at home.
- **Materials.** Printable PDFs (parent prints in advance or co-op handles), eight videos per grade, six docs per grade. A working copier helps; a borrowed projector or shared screen for video is enough.
- **Teacher / parent PD.** 2-hour asynchronous certificate-bearing Cash Certified Teacher PD — the same module a classroom teacher takes is open to homeschool co-op leads and parent-teachers. Certificate-bearing for parents who want it.
- **Tech footprint.** None required. A laptop, a phone with internet for streaming, or a downloaded video file all work.

Capstone visibility — what families and end-of-year showcases hold

The Capstone is the easiest way for a homeschool family to show what their year did:

- **K-2** — finished store artifact + revision sentence; co-op store day works as the showcase.
- **3-5** — Market Day with a 30-second pitch, signed debrief, friends and family invited.
- **6-8** — one-month ledger, SOP, break-even calculator, Day-30 evidence letter — fits a portfolio binder.
- **9-12** — Business Model Canvas, 12-month cash flow, investor-style pitch in Grade 11, Grade-12 portfolio defense suitable for college-application supplemental materials.

The Capstone artifacts are state-portfolio-friendly where state reporting requires them.

Three objections we hear from homeschool leaders, and the response

"We're a small pod and can't manage a complex curriculum." Cash is designed for routines, not heroics. The Monday opener is five minutes. The Wednesday work block has a parent-facing playbook. There is no software to learn, no LMS to manage, no proprietary platform. If your co-op can run a Friday morning circle, your co-op can run Cash.

"Our families have very different views about money. Will this push something?" The curriculum does not push a wealth posture, a political posture, or a values position about money beyond two operational claims: honest claims build customers who come back, and revenue is loud, contribution margin is true. The 15-banned-phrases card — including "everyone can be rich," "side hustle," "passive income," "boss up," and "financial freedom" — is publicly visible.

Families wary of hustle-coded content tend to find Cash a relief. Families seeking a wealth-building program tend to find Cash a poor fit.

"My oldest is in Grade 11 and we're already deep in their high-school plan." Cash slots beside what your high-schooler is already doing. The Grade-11 venture sprint can be the elective; the Grade-12 portfolio defense can be a college-application piece. Or you can use the Grades 11-12 materials in a single year as a senior project and not run earlier years at all. Your call.

Pilot pathway — what week 1 looks like

- **Week 1.** Co-op lead and any other parent-teachers complete Cash Certified Teacher PD (2 hours, asynchronous). Co-op lead reviews the Sensitivity Policy and 15-banned-phrases card with families.
- **Week 2.** First Monday opener runs at home; first co-op Wednesday work block runs at the co-op.
- **Week 4.** First Capstone milestone — early-grade artifacts visible at end of co-op day.
- **Week 8.** Mid-pilot family check-in. Decide whether to extend, hold, or step back.
- **Week 16.** End-of-semester showcase — Market Day, Pitch Night, or Defense Day depending on grade bands present.

Next step

Request the Cash Certified Teacher PD link, the Standards Alignment Map (useful for state-portfolio filing), and a 30-minute call with your co-op lead.

— The Cash to Company team. K-12, one mascot. Routines, not heroics.

One promise.

Routines, not heroics. K–12, one mascot.

Cash to Company is built so a curriculum coordinator, a foundation officer, a parent, or a teacher can pick up any one of these references and meet the program at full strength on the first page.

No promise of wealth. No probing of family finances. No partisan content. One question, asked patiently for thirteen years: which people, and how do you know?

For educational and operational use. This document is informational and does not constitute financial, legal, or tax advice. Standards alignment is cited per the Cash to Company Standards Alignment Map (Jump$tart, CEE, CCSS, C3, CASEL, NGSS-ETS).
