Document type. State standards crosswalk, Tier-1 launch state. **Authoring lens.** Senior K-12 standards-alignment specialist (15+ years; CA Common Core, History-Social Science Framework, Career Technical Education Model Curriculum Standards). **Pairs with.** `00_Standards_Alignment_Map.md`.

1. State context — financial literacy and entrepreneurship in California

California has 5.8M+ public-school students — the largest in the U.S. — and historically had **no** stand-alone financial-literacy graduation requirement. **That changed in October 2024.**

Graduation requirement (high school).

- **AB 2927** (signed October 2024) requires every public high school in California to **offer a stand-alone, semester-long Personal Finance course beginning in the 2027-28 school year**, with **completion of the course required for graduation starting with the class of 2030-31 (current 6th-graders in April 2026)**. (Source: California Education Code §51284.6 as enacted by AB 2927; CDE implementation guidance, as of April 2026.)
- This makes California the **26th state** with a personal-finance graduation requirement and the largest by a wide margin.
- The course must align to the **California Common Core State Standards (CA CCSS)** in Math and ELA, the **California History-Social Science Framework (2016)**, and the **CTE Model Curriculum Standards: Business and Finance Industry Sector**.

Elementary and middle school.

- CA has **no explicit K-8 financial-literacy standards strand** comparable to TEKS-Math PFL. Personal finance shows up sparsely in the **History-Social Science Framework** (Grade 3: "communities depend on producers and consumers"; Grade 4: "California economy and labor"; Grade 8: "U.S. economic development").
- The **CA CCSS-Math** and **CA CCSS-ELA** are nearly identical to national CCSS — adopted 2010, last amended 2013. C2C's existing CCSS alignment carries over directly.

Mandate year. AB 2927 effective 2024; offering required 2027-28; graduation requirement first applies to class of 2030-31.

2. Adoption notes

- **California is a state-adopted-list state for K-8** through the **CA Curriculum Framework and Evaluation Criteria Committee** and the **State Board of Education (SBE)**. The State Board adopts a list of approved instructional materials by content area; districts choose from the list using state textbook funds.

- **Grades 9-12 adoption is fully local.** Districts choose any aligned material. C2C HS bypasses state adoption entirely.
- **Adoption cycle.** CA History-Social Science framework last revised 2016; next review window 2027-28. The new Personal Finance course standards are expected to be a 2026-2027 SBE action item.
- **Decision-makers.** District curriculum directors, county offices of education (COEs — 58 of them), and CTE administrators. Los Angeles Unified, San Diego Unified, Long Beach Unified, Fresno Unified, and Oakland USD are the highest-leverage districts.
- **Critical insight:** California is the most aggressive state in K-12 ethnic studies, environmental literacy, and equity standards integration. C2C messaging that emphasizes anti-hustle, sensitivity-first, neutral-on-family-finance posture lands well with CA decision-makers.

3. Per-grade alignment matrix

Codes verified against the CA Department of Education website and California Code of Regulations, Title 5, Division 1, current edition. Where alignment is interpretive, marked **[VERIFY]**.

LRCI	Launch-or-Learn	**CA CCSS-ELA W.11-12.7**	"Conduct short as well as more sustained research projects."

4. Bonus alignments

- **CTE pathway.** California's CTE Model Curriculum has 15 industry sectors. C2C maps to:
- **Business and Finance** (Business Management, Financial Services, International Business pathways)
- **Marketing, Sales, and Service** (Entrepreneurship, Marketing, Professional Sales)
- **AP/IB.** AP Microeconomics, AP Macroeconomics, IB Business Management. C2C is **not** an AP/IB replacement; it's the foundational sequence that prepares students.
- **Dual credit.** California Community Colleges offer **CCC AB 288** dual-enrollment partnerships. C2C Grade 11-12 aligns with **MGMT 1A (Intro to Business)** and **MGMT 35 (Entrepreneurship)** at most CCCs. **Opportunity:** articulation agreements with LACCD, City College of SF, San Diego CCD.
- **A-G pathway.** California's UC/CSU A-G admission requirements include a "G" elective. C2C Grade 11-12 (with CTE designation) qualifies as **G-elective**. **[VERIFY]** with UC Office of the President course-list certification.
- **Capstone ethnic studies / equity.** AB 101 (2021) requires ethnic studies for graduation starting class of 2029-30. C2C is not an ethnic-studies course but Grade 9-12 case studies should

ensure diverse founders, multilingual examples, and community-based ventures to align with the spirit of AB 101.

5. Title-I and equity considerations

- California Title-I, Part A allocation ~$2.0B annually. C2C qualifies as supplemental.
- **EL/ELL alignment.** California has 1.1M+ English learners (~19% of K-12). The state requires **ELD Standards** integration. C2C Spanish-language `_ES` track is critical for CA adoption — without it, C2C will not clear large districts (LAUSD requires Spanish-aligned materials for Title-III).
- **MTSS.** CA uses MTSS framework with explicit equity lens. C2C's tier-2 supports (sub plans, materials lists, extended capstone) need to reference UDL principles explicitly. **Gap.**
- **Special populations.** CDE's special-ed accommodations require IEP modifications. Same gap as TX — needs to be added to lesson plans.
- **Foster youth and homeless youth (AB 167, McKinney-Vento).** California has 60K+ foster youth. C2C's anti-hustle, sensitivity-first posture is well-suited; flag for marketing copy aimed at COEs serving these populations.

6. Honest gaps

- **K-8 explicit financial-literacy strand:** Unlike TX, CA has no K-8 explicit personal-finance standards. C2C's K-8 program is an enrichment — not a fit-to-mandate. Schools adopt it for the entrepreneurship + soft-skills value, not for compliance.
- **HS Personal Finance course standards:** AB 2927 standards have not yet been published by SBE (expected 2026-27). C2C HS will need a re-mapping pass once the official standards drop. **Plan a Q4 2026 re-issue of CA Crosswalk.**
- **Ethnic studies/AB 101:** C2C is not an ethnic studies course. Schools adopting C2C should pair it with their AB 101-compliant ethnic studies offering, not substitute.
- **Environmental Principles and Concepts (EP&C):** California requires EP&C integration in Science and HSS. C2C lightly touches sustainability (Grade 12 ESL). **Gap.** Recommend a sustainability-and-business sidebar at HS.

7. Senior verdict — California as a launch state

Strong long-term fit; complex short-term. AB 2927 makes California the largest financial-literacy graduation-mandated state in 2027-28. C2C is well-positioned to be the chosen text for many districts.

Short-term blocker: The HS Personal Finance course standards aren't published yet. Adoption decisions in CA cannot finalize until SBE acts (expected late 2026 / early 2027).

Leverage move. Pre-position C2C with the **Big 5 districts** (LAUSD, San Diego, Long Beach, Fresno, Oakland) in 2026-27 as a **pilot** ahead of the official course launch. When SBE publishes standards in 2027, C2C can already be in place. Pair this with **Spanish-language `_ES` track availability** as the sole differentiator vs. EVERFI / NGPF.

> **RISK**
> California's procurement is bureaucratic and politically sensitive. C2C's anti-hustle, neutral posture and sensitivity protocols are advantages — emphasize them in CA-specific marketing.

One promise.

Standards-rigorous. District-defensible. California-specific.

Cash to Company is built so a curriculum coordinator, a district adoption committee, or a state DOE reviewer can pick up this state crosswalk and confirm alignment grade by grade, code by code.

Where alignment is genuine, we cite verbatim. Where it is interpretive, we mark [VERIFY]. Where C2C does not meet a standard, we name the gap honestly. That is the only way a crosswalk earns trust at adoption committee.

For educational and operational use. This document is informational and does not constitute legal, tax, or compliance advice. State standards alignment is cited per the relevant state DOE official publications, current as of April 2026. Districts should verify current standards editions before adoption.
