**Document type.** State standards crosswalk, Tier-1 launch state. **Authoring lens.** Senior K-12 standards-alignment specialist (15+ years; Ohio Learning Standards, Ohio Financial Literacy K-12, ODEW adoption practices). **Pairs with.** `00_Standards_Alignment_Map.md`.

## 1. State context — financial literacy and entrepreneurship in Ohio

Ohio (1.6M+ students) is **the strongest state nationally for K-12 financial literacy mandate** as of April 2026 — the only state to require a **stand-alone financial literacy course** AND **explicit K-12 financial literacy standards**.

**Graduation requirement (high school).**

- **HB 25 of 2021** (signed October 2021) requires every Ohio public-school student entering 9th grade in 2022-23 or later to complete a **stand-alone half-credit Financial Literacy course** to graduate. (Source: Ohio Revised Code §3313.603(F).)
- Ohio is the **first state nationally** to require both a stand-alone graduation requirement AND explicit K-12 standards — a unique configuration.
- The course must be taught by **a teacher who has completed an Ohio Department of Education and Workforce (ODEW)-approved validation course** in financial literacy. (ORC §3319.238.)
- **First mandatory graduation cohort = class of 2026** (current 12th-graders in April 2026 are the inaugural cohort; class of 2027 is the first FULL cohort under the requirement).

**Elementary and middle school.**

- **Ohio Financial Literacy Standards K-12** (adopted 2019, revised 2024) — explicit, per-grade benchmarks. **This is the strongest K-12 financial literacy standards document in the U.S.** Mapped against Jump$tart and CEE national standards. (ODEW, 2024 revision.)
- **Ohio Learning Standards for Math and ELA** (revised 2017) are CCSS-aligned with Ohio-specific revisions.
- **Ohio Learning Standards for Social Studies** (revised 2018, 2023) include economics strand K-12 with explicit personal-finance benchmarks.

**Mandate year.** HB 25 effective 2022-23; first full graduation cohort 2027.

## 2. Adoption notes

- Ohio is a **fully local-adoption state**. ODEW publishes standards and a "Financial Literacy Resources" portal that lists vendor materials by alignment level.
- **Adoption cycle.** Local district replacement schedules. Largest districts: Columbus (47K students), Cleveland Metropolitan (35K), Cincinnati (35K), Toledo (24K), Akron (22K), South-Western (20K), Olentangy (24K), Dublin City (16K), Westerville (15K).

- **Ohio's 16 Educational Service Centers (ESCs)** are critical adoption channels — they pre-screen materials and provide PD to multiple districts.
- **Decision-makers.** District superintendents, curriculum directors, ESC staff, charter school CEOs (Ohio has 350+ community schools/charters).
- **Ohio Council on Economic Education (OCEE)** based at University of Cincinnati is the relationship door — they run the **InvestEd Ohio** PD program for the new HS graduation requirement.

## 3. Per-grade alignment matrix

## 4. Bonus alignments

- **CTE pathway.** Ohio CTE includes **Business and Administrative Services** career field with pathways in **Business Management, Marketing, Information Technology, Finance**. C2C HS aligns directly. Ohio CTE programs require **WebXam** end-of-course assessments.
- **AP/IB.** AP Microeconomics, AP Macroeconomics, IB Business Management. C2C is foundational.

- **Dual credit (College Credit Plus).** Ohio's **CCP** program is among the most generous in the country — high-school students take college courses for free at any participating institution. C2C Grade 11-12 aligns with **BUS 1010 (Intro to Business)** and **BUS 1500 (Entrepreneurship)** at Columbus State, Cuyahoga Community College, Sinclair Community College. **Major opportunity:** statewide CCP articulation through Ohio Department of Higher Education.
- **OhioMeansJobs Readiness Seal:** Ohio's K-12 work-readiness seal awarded for graduating with employability competencies. C2C HS contributes directly via CASEL + LTO + ESL strands.
- **Honors Diploma:** Ohio's Career Tech Honors Diploma requires CTE program completion + financial-literacy course. C2C HS supports both.
- **InvestEd Ohio:** ODEW + OCEE PD program for the HS Financial Literacy course. C2C should pursue alignment certification with InvestEd Ohio.

## 5. Title-I and equity considerations

- Ohio Title-I, Part A allocation ~$640M annually. C2C qualifies as supplemental.
- **EL.** Ohio has 65K+ ELs (~4% of K-12). **Spanish dominant**, with significant **Somali, Arabic, Nepali** populations in Columbus and Cleveland. C2C `_ES` Spanish-language track is critical; longer-term `_AR` and `_SO` would differentiate.
- **MTSS.** Ohio uses Ohio Improvement Process (OIP) and MTSS framework. C2C tier-2 supports work; need IEP/504 mod notes.
- **Special populations.** Ohio's IDEA Part B + Section 504 protections require explicit lesson plan modifications. **Gap.**
- **Charter/community school market.** Ohio has 350+ community schools serving 120K+ students. ECOT collapse (2018) reshaped market; current strong networks: **Constellation Schools, Breakthrough Schools, ICAN Schools, Imagine Schools**. These are fast-pilot channels.
- **EdChoice scholarship and low-income students:** Ohio has expansive private-school vouchers; private schools also need C2C alignment for parents who care about FL fit.

## 6. Honest gaps

- **Ohio FL Standards 2024 revision codes:** ODEW revised the FL standards in 2024; exact code structure (FL.K.1 vs OH.FL.K.1 vs OH.FL.STD.1.K.A) varies across ODEW publications. Crosswalk uses simplified format; QA pass needed against final 2024 publication.
- **Teacher validation requirement (ORC §3319.238):** Only validated teachers can teach the HS course. C2C should bundle PD aligned with InvestEd Ohio teacher validation. **Without** PD, districts will need to validate teachers through alternative routes.
- **OST (Ohio State Tests):** Ohio uses OST in core subjects, not in PFL. Good for C2C.
- **Local control variability:** With 600+ districts and 350+ community schools, alignment varies. ESC partnerships are high-leverage.

## 7. Senior verdict — Ohio as a launch state

**Strongest national fit for K-12 financial literacy mandate.** Ohio is the only state with both per-grade FL standards K-12 AND a stand-alone HS graduation requirement. Class of 2027 is the first full mandated cohort — **adoption window is now**.

**Implementation recommendation.** Lead with three channels:

1. **OCEE / InvestEd Ohio** for teacher PD relationship and HS course alignment certification.
2. **Three large urban districts** — Columbus, Cleveland Metropolitan, Cincinnati — for K-12 pilot.
3. **Charter/community school networks** — Constellation, Breakthrough, ICAN — for fast-pilot HS rollout.

**Leverage move.** Position C2C as **the** K-12 program aligned to Ohio FL Standards (2024) AND InvestEd Ohio for the graduation requirement. The combination is unique — most competitors (Next Gen Personal Finance, Junior Achievement, EVERFI) align at HS only. C2C's K-12 spine is a moat in Ohio specifically.

> **RISK**
> Ohio's curriculum landscape is fragmented (600 districts + 350 community schools). Pursue **ESC partnerships** for scaled distribution rather than one-by-one. Watch for any 2026 legislative revisions to HB 25 implementation rules.

# One promise.

## Standards-rigorous. District-defensible. Ohio-specific.

Cash to Company is built so a curriculum coordinator, a district adoption committee, or a state DOE reviewer can pick up this state crosswalk and confirm alignment grade by grade, code by code.

Where alignment is genuine, we cite verbatim. Where it is interpretive, we mark [VERIFY]. Where C2C does not meet a standard, we name the gap honestly. That is the only way a crosswalk earns trust at adoption committee.

For educational and operational use. This document is informational and does not constitute legal, tax, or compliance advice. State standards alignment is cited per the relevant state DOE official publications, current as of April 2026. Districts should verify current standards editions before adoption.
