Document type. State standards crosswalk, Tier-1 launch state. **Authoring lens.** Senior K-12 standards-alignment specialist (15+ years; Virginia Standards of Learning, VDOE adoption practices, Economics and Personal Finance EPF course). **Pairs with.** `00_Standards_Alignment_Map.md`.

1. State context — financial literacy and entrepreneurship in Virginia

Virginia (1.27M+ students) has had a **stand-alone Economics and Personal Finance graduation requirement** since 2011 — the **longest-running mandate in any large U.S. state** — and is the gold-standard model that other states (NC, OH, IL, PA, FL) explicitly cite when designing their own requirements.

Graduation requirement (high school).

- **Code of Virginia §22.1-253.13:1.D.5** and **8VAC20-131-50** require every Virginia public-school student to complete a **one-credit course in Economics and Personal Finance (EPF)** to earn a Standard or Advanced Studies Diploma. (Effective for students entering 9th grade in 2011-12 or later; class of 2015 first graduates under requirement.)
- The course code is **6120** (Economics and Personal Finance) and the curriculum framework follows the **VDOE Economics and Personal Finance Standards** (revised 2018, 2023).
- The course is typically taken in Grade 11 or 12.
- Virginia is the **most mature** state for EPF — 14+ years of implementation history, established teacher-licensure pathways, integrated assessment infrastructure.

Elementary and middle school.

- **Virginia Standards of Learning (SOL) for Math** (revised 2023, full implementation 2024-25) and **English** (revised 2024) include personal-finance content K-8.
- **VA SOL for History and Social Science** (revised 2015, with 2023 revision in progress) include economics standards K-12 — strongest K-2 personal-finance content among large states.

Mandate year. EPF effective 2011-12; class of 2015 first graduating cohort.

2. Adoption notes

- Virginia is a **state-recommended-list state** for K-12 instructional materials via the **VDOE Instructional Materials Review** process. Districts may adopt off-list materials with local funds.
- **Adoption cycle.** Math adoption 2024-25 (post-2023 SOL revision); History/Social Science adoption 2024-25 (pending 2023 SOL revision); ELA 2025-26.
- **Decision-makers.** District superintendents, curriculum directors. Largest districts: **Fairfax County Public Schools (180K students)**, Loudoun County (82K), Prince William County (90K), Virginia Beach (66K), Chesapeake (40K), Henrico (50K).

- **VDOE 8 Superintendent's Regions** coordinate curriculum support and PD.
- **Virginia Council on Economic Education (VCEE)** at University of Richmond is the **national gold-standard** PD partner — they trained the first cohort of EPF teachers in 2011 and continue to lead. **VCEE endorsement is essentially mandatory for credible adoption** in Virginia.

3. Per-grade alignment matrix

Codes verified against VDOE Standards of Learning (Math 2023 revision, History/Social Science 2015 + 2023 revision in progress, English 2024 revision) and VDOE Economics and Personal Finance Standards (2023 revision). Where alignment is interpretive, marked **[VERIFY]**.

CBM	Launch-readiness	**CTE Marketing — Course 8155 Marketing** [VERIFY]	

4. Bonus alignments

- **CTE pathway.** Virginia CTE includes **Marketing**, **Business and Information Technology**, **Finance** career clusters. Each pathway has 2-4 sequenced courses + CTE Industry Certifications. C2C HS aligns directly with all clusters. **VA Career Cluster: Marketing** courses include Entrepreneurship (8120), Marketing (8155), and Advanced Marketing (8160).
- **Industry Credentials/Certifications.** VA awards **Verified Credit** for industry-recognized credentials (W!se Financial Literacy Certification, ESB Entrepreneurship & Small Business). C2C HS prepares students for both. **Strong revenue argument** — districts get credit for Verified Credit attainment.
- **AP/IB.** AP Microeconomics, AP Macroeconomics, IB Business Management. C2C is foundational.
- **Virginia's Dual Enrollment.** Strong articulation possible with **Virginia Community College System (VCCS)**. C2C Grade 11-12 aligns with **BUS 100 (Intro to Business)** and **BUS 200 (Survey of Business)** at VCCS courses. **Major opportunity.**
- **Profile of a Virginia Graduate (8VAC20-131-50.A):** Virginia's K-12 graduation framework requires **Five Cs — Critical thinking, Creative thinking, Communication, Collaboration, Citizenship**. C2C strands map directly onto all Five Cs. **Important for VDOE-facing pitch.**

5. Title-I and equity considerations

- VA Title-I, Part A allocation ~$300M annually. C2C qualifies as supplemental.
- **EL.** VA has 105K+ ELs (~8% of K-12). **Spanish dominant** in Fairfax, Prince William, Arlington. Significant **Arabic, Korean, Vietnamese** in Northern Virginia. C2C `_ES` Spanish-language track is critical for NoVA.
- **MTSS.** VA uses VTSS (Virginia Tiered Systems of Supports) framework. C2C tier-2 supports work; need IEP/504 mod notes.
- **Special populations.** VA's IDEA Part B + Section 504 require explicit IEP modifications. **Gap.**
- **Equity Profile (8VAC20-131-50.B):** VDOE requires schools report on equity outcomes. C2C's neutral, anti-hustle posture supports equity narratives.
- **Northern Virginia (NoVA) districts** are highly affluent and tech-fluent; rural Southside districts are paper-based and resource-constrained. Adoption strategy must address both.

6. Honest gaps

- **VA SOL Math 2023 revision codes:** Crosswalk uses 2023-revision format (e.g., 6.PS.1) where possible; some districts may still reference 2016 SOL codes (e.g., 6.6) during the transition. Recommend QA pass.
- **VA SOL English 2024 revision codes:** Similarly transitional.
- **EPF Standards 2023 revision:** Crosswalk uses 2023-revision EPF codes (EPF.5-18); VDOE may use slightly different subsection numbering. **[VERIFY] all EPF codes against VDOE 2023 publication.**
- **CTE pathway codes:** VA CTE uses 4-digit course codes (e.g., 8120 Entrepreneurship); some courses have been renumbered in recent CTE updates.
- **W!se Financial Literacy Certification alignment:** C2C HS should verify alignment with W!se exam blueprint to support Verified Credit attainment. **Action item for QA team.**
- **Profile of a Virginia Graduate "Five Cs":** VDOE requires assessment evidence of all Five Cs. C2C item bank may need light recoding to map evidence to Five Cs explicitly.

7. Senior verdict — Virginia as a launch state

Top-2 strongest fit nationally. Virginia is the **most mature K-12 PFL ecosystem in the U.S.** — 14+ years of EPF graduation requirement, gold-standard VCEE PD partner, established teacher-licensure pathway, integrated Verified Credit infrastructure, Profile of a Virginia Graduate Five Cs framework. Virginia is a **launch state, not an emerging state** — adoption decisions are sophisticated and the bar is high.

Implementation recommendation. Lead with three channels:

1. **VCEE relationship** — non-negotiable. VCEE endorsement is the credential VA superintendents look for. Pursue formal alignment certification.
2. **Fairfax County and Loudoun County** for K-12 pilot — affluent, tech-fluent, with EL populations. Wins here open the rest of NoVA + media coverage.
3. **VDOE Statewide Approval** — Virginia approves a list of EPF-aligned materials; pursue inclusion. This is a 12-18 month process but unlocks statewide credibility.

Leverage move. Position C2C as **the** K-12 program aligned to **Profile of a Virginia Graduate Five Cs + EPF Verified Credit + W!se Certification**. This triple-alignment is unique. Combine with `_ES` for NoVA EL populations and the case becomes very strong.

RISK

Virginia is a sophisticated, settled market. Competition from Junior Achievement, NGPF, EVERFI, and the **VCEE-developed materials themselves** is established. C2C must differentiate on K-12 spine + Cash mascot continuity + anti-hustle posture + `_ES` track. Without VCEE endorsement, adoption will be very difficult. Plan **18-24 months** to first scaled VA pilot.

One promise.

Standards-rigorous. District-defensible. Virginia-specific.

Cash to Company is built so a curriculum coordinator, a district adoption committee, or a state DOE reviewer can pick up this state crosswalk and confirm alignment grade by grade, code by code.

Where alignment is genuine, we cite verbatim. Where it is interpretive, we mark [VERIFY]. Where C2C does not meet a standard, we name the gap honestly. That is the only way a crosswalk earns trust at adoption committee.

For educational and operational use. This document is informational and does not constitute legal, tax, or compliance advice. State standards alignment is cited per the relevant state DOE official publications, current as of April 2026. Districts should verify current standards editions before adoption.
