TEACHER PD · ACTIVITIES

Activity Packet

Twelve hands-on activities. Eight of twelve to certify. Twelve to be sharper on Day 1.

Voice-band-spotting drills, misconception role-plays, sensitivity scenario sorts, anchor-paper calibration, family visit day run-of-show. The activities the certification quiz tests behaviors of.

ACTIVITY PACKET

CONTENTS

Activity Packet

Twelve hands-on activities. Eight of twelve to certify. Twelve to be sharper on Day 1.

01 Activity 1 — Elevator-Pitch Drill (Module 01) /

02 Activity 2 — The Spine-Question Walk (Module 01) /

03 Activity 3 — Concrete-First Rewrite (Module 02) /

04 Activity 4 — Outcome-Verb Audit (Module 02) /

05 Activity 5 — Voice-Band-Spotting Drill (Module 03) /

06 Activity 6 — The Forbidden-Phrase Sort (Module 03) /

07 Activity 7 — Misconception-Correction Role-Play (Module 04) /

08 Activity 8 — Sensitivity Scenario Sort (Module 04) /

09 Activity 9 — Scaffold Menu Build (Module 05) /

10 Activity 10 — Differentiation Trio Plan (Module 05) /

11 Activity 11 — Anchor-Paper Calibration (Module 06) /

12 Activity 12 — Family Visit Day Run-of-Show (Module 06) /

13 Activity completion log /

> The activities are necessary, not optional. The quiz tests behaviors the activities rehearse.

12 hands-on activities. ~2,500 words of working materials.

These activities are built to be done **alongside** the modules, not after. Each module names two activities; this packet holds all twelve in one place. Do at least 8 to qualify for the certificate. Do all 12 to be a sharper teacher on Day 1 of your Cash year.

The activities work solo or in pairs. Pair work is preferred where named. Activities take 5–15 minutes each.

Activity 1 — Elevator-Pitch Drill (Module 01)

Time: 8 minutes · **Solo or pair** · **Walkaway:** the 30-word brand promise on automatic recall.

SETUP

Print this:

> Cash to Company is a K-12 entrepreneurship and financial-literacy program led by Cash, an animated coin who asks one question for thirteen years: which people, and how do you know?

DRILL

1. Read it aloud once. Note the rhythm.
2. Cover the page. Recite from memory. Check yourself.
3. Recite to a peer. Have them flag any added word.
4. Voice-memo yourself reciting it. Listen back.
5. Note where you wanted to add a word — "amazing!" "unique!" "innovative!" Don't.

REFLECTION

Write 1 sentence: "The word I most wanted to add was **, and I noticed it because** ."

Activity 2 — The Spine-Question Walk (Module 01)

Time: 10 minutes · **Solo** · **Walkaway:** five spine-question anchor points in your room.

SETUP

Walk into your classroom (or imagine it). Bring 5 sticky notes and a pen.

THE WALK

At each of these locations, ask yourself: "Where will a student make a vague claim here?" Place a sticky note where the spine question — "Which people, and how do you know?" — should land.

1. The journal corner / desk where journals live.
2. The project corner / wall where Capstone artifacts are pinned.
3. The whiteboard / shared note-taking surface.
4. The door (where students walk in saying things).
5. The teacher's conferring chair (where 1:1 conversations happen).

REFLECTION

The five sticky notes are the visible reminders that the spine question lives in this room. Leave them up for two weeks. Replace with a permanent visual when you are ready.

Activity 3 — Concrete-First Rewrite (Module 02)

Time: 12 minutes · **Solo or pair** · **Walkaway:** the muscle of leading with concrete.

SETUP

Here is a definition-first opener (typical in non-Cash curricula):

> "Today we will learn about contribution margin. Contribution margin is the amount each unit sold contributes to covering fixed costs. It is calculated by subtracting variable costs per unit from price per unit. Let's begin with a definition."

THE REWRITE

Rewrite this opener concrete-first. Lead with a specific person, a specific number, or a specific story. Land the term contribution margin AFTER the concept is held in the student's hand.

Constraint: the rewrite is for a 7th-grader. Stay in 6-8 Cash voice — full sentences, occasional honest aside.

COMPARE

The Cash to Company version (from the Grade 7 Curriculum Book):

> "Imagine a kid named Mae who sells friendship bracelets at lunch for $3. Each bracelet uses 90 cents of string and beads. So Mae keeps $2.10 from every bracelet. That $2.10 is what's left to pay everything else — the table she paid to use, the materials she ran out of and replaced, the time it took her to set up. We call that $2.10 her contribution margin — what each sale 'contributes' after the cost of making the thing itself."

REFLECTION

What did the concrete-first version give the student that the definition-first version did not?

Activity 4 — Outcome-Verb Audit (Module 02)

Time: 10 minutes · **Solo** · **Walkaway:** the difference between fuzzy and measurable.

SETUP

Here are 8 sample lesson objectives. Half are fuzzy (Cash refuses these). Half are measurable (Cash uses these).

1. Students will appreciate the importance of customer feedback.
2. Students will conduct a 5-minute customer interview using three open-ended questions.
3. Students will understand contribution margin.
4. Students will calculate contribution margin for a 1-product venture given price and variable cost.
5. Students will be aware of marketing ethics.
6. Students will identify two manipulative claims in a sample ad and rewrite them honestly.
7. Students will know about the Capstone process.
8. Students will defend their Capstone using the Pitch Presentation rubric in 4 minutes.

THE AUDIT

Mark each as MEASURABLE (M) or FUZZY (F). Rewrite each F as an M.

ANSWER KEY

1. F → "Students will name 3 specific reasons customer feedback changes a product."
2. M
3. F → "Students will calculate contribution margin..."
4. M
5. F → "Students will flag 2 manipulative claims in an ad..."
6. M
7. F → "Students will list the 4 Capstone Checkpoint artifacts and the rubric used for each."
8. M

Activity 5 — Voice-Band-Spotting Drill (Module 03)

Time: 12 minutes · **Solo or pair** · **Walkaway:** ear for band-locked voice.

SETUP

Sort each of these 12 sentences into K-2, 3-5, 6-8, 9-12, or NOT-CASH (a banned phrase or wrong personality).

1. "What did the helper do? Tell me what you saw with your eyes."
2. "Anyone can be a millionaire if they just believe in themselves!"
3. "You'll meet adults who skipped this part and got lucky. Don't model your career on luck. Model it on the moves."
4. "Revenue is loud. Contribution margin is true."
5. "You picked this idea. How do you know somebody actually wants it?"
6. "Crush it out there, future bosses!"
7. "What's your evidence? Tell me what they actually said." (with full sentences allowed)
8. "Notice, notice, notice. Who needs help today?"
9. "Game-changer alert: your side hustle starts now."
10. "You can pick what kind of business you build. It's a choice."
11. "How do you know somebody actually wants it?"
12. "In this room, a customer is a specific person before they are a number."

ANSWER KEY

1. K-2 · 2. NOT-CASH (banned: anyone can be a millionaire, just believe) · 3. 9-12 · 4. 6-8 · 5. 3-5 · 6. NOT-CASH (banned: crush it, "future bosses") · 7. 6-8 (or 9-12) · 8. K-2 · 9. NOT-CASH (banned: game-changer, side hustle) · 10. 9-12 · 11. 3-5 · 12. 6-8

REFLECTION

Which mis-sort was hardest to spot? Why?

Activity 6 — The Forbidden-Phrase Sort (Module 03)

Time: 12 minutes · **Solo** · **Walkaway:** the 15 banned phrases live in your peripheral vision.

SETUP

Read each of these 10 sentences. Mark any banned phrase or banned cost-positioning word. Rewrite to make it Cash-compliant.

1. "This program is amazing — and free!"
2. "Anyone can crush it as their own boss."
3. "Cash to Company is a free K-12 curriculum."
4. "Easy money for kids who hustle."
5. "Just believe in your idea and the customers will come."
6. "Disrupt your neighborhood with a side hustle this summer."

7. "Unleash your potential — financial freedom awaits."
8. "Cost-effectiveness: free."
9. "If they can do it, you can do it."
10. "When you're rich, remember where you started."

SAMPLE REWRITES

1. "Cash to Company — K-12 mascot continuity, evidence-based, with a Capstone every year."
2. "Some students find that running a small venture gives them clarity about money. The work is real."
3. "Cash to Company — a K-12 entrepreneurship and financial-literacy curriculum."
4. "Running a small venture is real work. The math is real. The customer interviews are real."
5. "Test your idea. Ask three customers what they actually said. Adjust."
6. "You can build a small venture in your neighborhood this summer. Start with three customer interviews."
7. "Specific numbers and clear questions are the moves. Practice them, often."
8. "Differentiator: K-12 mascot continuity, no sponsor, Capstone every year."
9. "Some people built ventures with similar starts. Some didn't. The moves transfer."
10. (no rewrite needed — this whole frame is dropped; replace with a question or canonical phrase.)

Activity 7 — Misconception-Correction Role-Play (Module 04)

Time: 15 minutes · **Pair** · **Walkaway:** automatic surface-sharpen-settle.

SETUP

You are the teacher. Your partner is the student. Run the 3-step script on each scenario. Switch roles after the third.

SCENARIOS

Scenario A — Grade 4. Student says: "My friend Marcus is gonna be a millionaire because he's super good at video games."

Scenario B — Grade 7. Student says: "My uncle says you can't get rich working for someone else — you have to start your own business."

Scenario C — Grade 10. Student says: "I read online that the stock market is rigged so I'm just gonna do crypto instead."

THE 3-STEP RUN

For each scenario: 1. **Surface:** ask a question that names what the student believes without judgment. 2. **Sharpen:** introduce one piece of evidence (a number, a study, a story). 3. **Settle:** ask the student to articulate the corrected sentence.

SAMPLE 3-STEP FOR SCENARIO A (GRADE 4)

- Surface: "Cool — what does Marcus do that makes you think he'll be a millionaire?"
- Sharpen: "Real number — about 200 people in the US made over $100,000 last year playing video games professionally. So a lot of people try; a few make a lot. What does that suggest?"
- Settle: "Could you say it in a different way now? 'Marcus might make money playing games if ___.'"

Activity 8 — Sensitivity Scenario Sort (Module 04)

Time: 10 minutes · **Solo or pair** · **Walkaway:** clean filter for sensitivity-risk.

SETUP

Sort each scenario as SAFE, SENSITIVITY-RISK (proceed with the script), or NO-GO (do not proceed).

1. "Raise your hand if your family has a savings account."
2. "Imagine a sample family of four. They spend about $250 a week on groceries."
3. "What political party is best for small businesses?"
4. "Tell us about a time you saved up for something — anyone?"
5. "What does your dad earn? Approximately."
6. "Pick a fictional character — Hermione Granger. What do you think her monthly expenses look like?"
7. "What religion teaches the right view of money?"
8. "Let's compute the contribution margin on a friendship bracelet."
9. "Anyone whose family is on free lunch, raise your hand."
10. "Here's a real-world stat: federal minimum wage is $7.25 an hour. Let's compute a 10-hour week."

ANSWER KEY

1. NO-GO · 2. SAFE · 3. NO-GO · 4. SENSITIVITY-RISK (proceed carefully — students may share too much; redirect to the future "this week, save up for X") · 5. NO-GO · 6. SAFE · 7. NO-GO · 8. SAFE · 9. NO-GO · 10. SAFE

Activity 9 — Scaffold Menu Build (Module 05)

Time: 12 minutes · **Solo** · **Walkaway:** a customized scaffold menu for your real classroom.

SETUP

Pull your real class roster. (Or imagine the one you'll have.)

BUILD

For each of the three populations — ELL, IEP/504, advanced — name: 1. Two students by initial in your classroom. 2. The grade band. 3. Two scaffolds from this module's menu that fit. 4. One scaffold you'd add that's specific to that student.

SAMPLE (GRADE 7 CLASSROOM)

- ELL: M.S. (newcomer Spanish-dominant), J.K. (intermediate Mandarin). Scaffolds: cognate hunt, Frayer model, math-first sequence. Custom: M.S. interviews customers in Spanish; transcripts translated by partner.
- IEP/504: D.R. (ADHD, executive function), L.W. (anxiety). Scaffolds: chunked task list, Showcase+Stuck normalizes stuck, calculator allowed. Custom: L.W. defends to a 3-person panel instead of full class.
- Advanced: A.P. (above grade level reading + math). Scaffolds: real customer interviews, financial modeling extension, early premortem. Custom: A.P. shadows a Grade 8 lesson once per quarter.

Activity 10 — Differentiation Trio Plan (Module 05)

Time: 15 minutes · **Pair** · **Walkaway:** lesson-ready differentiation moves.

SETUP

Pull one Cash lesson plan from your target band. (E.g., Grade 7 Lesson 5 — Variable Cost per Customer.)

PLAN

For the same lesson, plan three concrete differentiations — one ELL, one IEP/504, one advanced. Each differentiation should: - Keep the strand outcome the same. - Change the path, not the destination. - Be specific (a real scaffold, not "give them a worksheet").

COMPARE

Trade plans with a partner. For each of the partner's three plans, ask: "What's the strand outcome they're driving toward, and is the scaffold honest?"

Activity 11 — Anchor-Paper Calibration (Module 06)

Time: 30 minutes · **Pair (required)** · **Walkaway:** the calibration protocol in your hands.

SETUP

Pull three sample Capstone artifacts. (Use the three samples in `_master/04_Rubric_Bank.md`'s anchor section, OR three artifacts from a previous year, OR three you write together.) Pull the Pitch Presentation rubric.

RUN THE 30-MINUTE PROTOCOL

- Minutes 0–5: read the anchor papers silently.
- Minutes 5–10: score Sample 1 individually.
- Minutes 10–15: reveal scores, discuss any criterion that diverges by more than 1 step.
- Minutes 15–20: score Sample 2, reveal, discuss.
- Minutes 20–25: score Sample 3, reveal, discuss.
- Minutes 25–30: agree on local conventions. Write them on the back of the rubric. Tape to the wall.

REFLECTION

Did your scores converge? On which criterion did you diverge the most? What was the local convention you agreed on?

Activity 12 — Family Visit Day Run-of-Show (Module 06)

Time: 15 minutes · **Solo or pair** · **Walkaway:** a working Defense day plan.

SETUP

Imagine a class of 8 students in your grade band running their Final Capstone Defense for an audience of family members + 1 community judge.

BUILD

1. Write the 90-second welcome script (use the 3-norm template from Module 06).
2. Write the schedule: 8 students, time per student, breaks, certificate moment, close.
3. Write the take-home card (front: 3 norms; back: rubric criteria the student was scored on).
4. Identify the timekeeper. Identify the host (you). Identify who hands out certificates.

SAMPLE FOR GRADE 4 (8 STUDENTS, 4-MIN DEFENSE + 2-MIN Q&A EACH)

- 0:00 Welcome + norms (you, 90 sec)
- 0:01 Cash V8 clip (1 min)
- 0:02 Student 1 defense + Q&A (6 min)
- 0:08 Student 2... [continues at 6-min cadence]
- 0:32 Break (5 min, snack table)
- 0:37 Student 6 (continues to Student 8)
- 1:01 Class reflection: "what's one thing you noticed about another defense?" (5 min)
- 1:06 Certificate distribution (5 min)
- 1:11 Thank evaluators, hand take-home cards (3 min)
- 1:14 End

ACTIVITY PACKET

Activity completion log

Print and check off as you complete:

```
 ☐ Activity 1 — Elevator-Pitch Drill          (Module 01)
☐ Activity 2 — Spine-Question Walk           (Module 01)
☐ Activity 3 — Concrete-First Rewrite        (Module 02)
☐ Activity 4 — Outcome-Verb Audit            (Module 02)
☐ Activity 5 — Voice-Band-Spotting Drill     (Module 03)
☐ Activity 6 — Forbidden-Phrase Sort         (Module 03)

☐ Activity 10 — Differentiation Trio Plan    (Module 05)
☐ Activity 11 — Anchor-Paper Calibration     (Module 06)
☐ Activity 12 — Family Visit Day Run-of-Show (Module 06)
```

8 of 12 minimum to qualify for the certificate. 12 of 12 to be a sharper teacher on Day 1.

One promise.

The activities are necessary, not optional. The quiz tests behaviors the activities rehearse.

Cash to Company is built so a curriculum coordinator, a foundation officer, a parent, or a teacher can pick up any one of these strategic references and meet the program at full strength on the first page.

No promise of wealth. No probing of family finances. No partisan content. One question, asked patiently for thirteen years: which people, and how do you know?

For educational and operational use. This document is informational and does not constitute financial, legal, or tax advice. Standards alignment is cited per the Cash to Company Standards Alignment Map (Jump$tart, CEE, CCSS, C3, CASEL, NGSS-ETS).
