
GRADE 1

Cash Video Scripts

C A S H

Businesses make things or do things.

Eight short Cash videos for the year.

Grade 1 — Cash to Company: Cash Video Scripts

Eight short videos, one per major Grade 1 milestone. Each script targets ~2:30–3:00 of finished runtime when paced for first graders, with 350–420 spoken words. Visuals carry most of the meaning — assume the child is reading-emergent and cannot follow on-screen text alone.

Format conventions:

- **[VISUAL]** = animated visual cue. Heavy use — this is the lesson at K-2.
- **CASH:** = spoken dialogue. K-2 voice: 6–10 word sentences, concrete only.
- **[SFX]** = sound effect or music cue.

K-2 voice rules applied: short sentences, concrete only, no abstract "evidence" word — instead "what did you see?" Repetition is friendly. CTAs are visual + verbal, classroom-anchored.

Every video ends with a clear **classroom CTA** for the teacher to anchor on.

Production notes (for the animator)

- **Heavy [VISUAL] use is the design.** First graders are reading-emergent. Every word Cash says should be paired with a picture or motion that carries the meaning. Type appears for emphasis (the word MAKE, the number 30) but is not the load-bearing element.
- **Cash's voice — calm, not hyper.** "Thoughtful older sibling," not "TV presenter." If a take sounds like a hyped-up children's-show host, redo it.
- **Concrete only.** Real coins on a mat. Real bakeries. Real dog walkers. No abstractions — no "value" word, no "service" word until later grades. Make and do are the abstract pair this year. That's enough.
- **Always frame the is it enough? question with PRETEND.** A small label PRETEND on screen during the coin lesson is a non-negotiable. Sensitivity flag noted in the curriculum book.
- **Cash never says:** "amazing!", "boss up", "everyone can be rich", "easy money", "just believe", "great job!" Cash says: "Coins add up. Count them. Tell me what you saw."
- **Each video ends with a clear classroom CTA** — what to do TODAY in the classroom. The CTA is the bridge from video to lesson.

UPGRADE LAYER (added by Brand & SMM Director, 2026-04-25)
