YEAR-AT-A-GLANCE

Four Units. Thirty-Six Weeks. One Capstone.

The year is built as four units, each ending with a public-facing artifact that feeds the rolling Capstone. The bars show how the weeks are spent — roughly equal, with a slight lean toward the math-heavy unit because per-customer math is the load-bearing skill.

GRADE 6 · MARKETING PACK

How We Talk About This Year

Most adults run their lives without a system. You won't.

Year theme: Businesses need systems and roles **Band:** 6-8 · **Audience:** 6th-grader · parent · teacher · admin

3-line elevator pitch

"Tell me what they actually said."

— CASH

"Cash to Company sixth grade teaches your 11-year-old that a business isn't a storefront — it's a system, with roles, ratios, and rules. We add segmentation, RACI, ratios beat numbers, and the line between 'legal' and 'sketchy.' Year 7 of a continuous K-12 mascot arc — mascot-led, no hustle, Capstone every year."

Parent-facing one-pager

"Most adults skip this. You won't."

— CASH

What sixth grade covers

- **System, not storefront** — a business is connected parts.
- **Customers are segments** — different people need different things.
- **Same thing, same way, every time** — operations consistency.
- **Numbers vs. ratios** — what's actually working.
- **Roles and RACI** — how teams stop arguing.
- **Legal but sketchy** — finding your line.
- **First answer ≠ real answer** — 5 Whys.
- **System thinker** — year-end synthesis.

Dinner-table earworms

- "A business isn't a storefront. It's a system."
- "Numbers say what. Ratios say whether."

- "Most adults skip this. You won't."

Promise: never asks family money. Never promises wealth.

What to say when...

Kid says	You can say
"This isn't fair."	"Walk me through the system. What broke?"
"Why did they do that?" (about a business)	"What did the first answer turn out to be? What was underneath?"

Teacher-facing one-pager

"Revenue is loud. Contribution margin is true."

— CASH

Year in 5 sentences

G6 introduces **systems thinking + middle-school customer reasoning.** Across 36 weeks, students map their venture as a system, segment a customer crowd, write SOPs, compute ratios, build a 3-row RACI, draw their "where's your line" sketchy/legal/illegal frame, run 5 Whys on objections, and present a system map at Defense Day. Capstone: a 5-box system + a customer segment + a SOP + a ratio. Sensitivity policy enforced.

Standards

- CCSS-Math.6.RP (ratios), 6.SP (statistics)
- CCSS-ELA.SL.6.1, W.6.1 (arguments)
- C3.D2.Eco.6-8.1, .2, .3 (markets, decisions)
- CASEL: Self-Awareness, Social Awareness

Weekly rhythm

Monday Cash + Q · Wed work block 45-60 min · Friday demo + retro 20 min · Tue/Thu vocab spine.

The 8 Cash-video CTAs

1. **V1 (W1)** Map your venture as a system: 5 boxes minimum.
2. **V2 (W4)** Slice your customer into 3 segments — Friday.
3. **V3 (W9)** Write a 3-step SOP for one part — Wednesday.
4. **V4 (W13)** Compute one ratio (gross margin OR conversion).
5. **V5 (W19)** 3-row RACI — Friday.
6. **V6 (W23)** Three sketchy-but-legal scenarios — where's your line?
7. **V7 (W31)** Run 5 Whys on a real objection.
8. **V8 (W36)** Defense Day — pitch as a 5-box system.

Admin pitch outline

> *"You don't have to know everything. You have to know one number."*
> — CASH

1. **Outcomes:** every G6 student maps a system, segments customers, writes a SOP, computes a ratio, builds a RACI, applies an ethics frame, runs a 5 Whys analysis.
2. **Standards:** CCSS-Math 6.RP, 6.SP; ELA.SL.6.1, W.6.1; C3.D2.Eco.6-8.1-3; CASEL.
3. **Equity:** no family-money probes; printable; equity-by-design.
4. **Evidence:** Fall 2026 pilot.
5. **Differentiator:** NGPF is HS-only; we cover middle school as part of the K-12 arc. JA is event-shaped; we are routine-shaped. EVERFI is sponsor-funded; we have no sponsor.

Sample social posts

Kid-direct

1. "My 11-year-old just told me 'mom, that pizza place isn't a storefront, it's eleven things glued together.' Cash to Company V1 is doing things."
2. "5 Whys at the dinner table: my sixth grader peeled my 'I'm too busy' down to 'I haven't planned dinners' in 4 questions. Send help." + V7 Short.
3. "'Numbers say what. Ratios say whether.' Pinned this on the fridge." + V4 Short.

Parent-direct

1. "Cash to Company sixth grade is the curriculum equivalent of a stealth productivity course for your middle-schooler. K-12, one mascot. Mascot is a coin."
2. "My kid wrote a SOP. SHE WROTE A SOP. (Cash to Company V3.) The mascot's voice is 'thoughtful older sibling, not TV presenter.' Worth your kid's time."
3. "Looking for non-hustle entrepreneurship for middle school? Cash to Company. Real ratios. Real systems. Real ethics. K-12 mascot continuity."

Teacher-direct

1. "V1 zoom-out reveal — bakery → 11 connected things — got my class quiet. They actually mapped systems for the rest of the period." + V1 Short.
2. "Compute one ratio this week. Half my students realized they couldn't even get the inputs. Best 'realization moment' of the year."
3. "The 'legal but sketchy' V6 frame is the ethics conversation my kids actually engage with. Their lines are SHARPER than mine."

ABOUT THE HOST

Cash, in five words

curious · warm · honest · patient · specific

"I'm Cash. I don't promise wealth. I don't promise success. I promise that the moves — interview, math, message, listen — will make you a clearer thinker about money no matter what you end up doing."

— CASH

What Cash does

- **Asks questions that point to evidence.** Cash never tells; Cash asks what your evidence says.
- **Names rules sparingly.** "An assumption is something you think is true without checking. Evidence is something you observed, heard, or counted."
- **Tells short, made-up-but-realistic stories.** 30–60 seconds, shows don't tell.
- **Celebrates the move, not the win.** Revision, honesty, and evidence — not revenue.
- **Hedges deliberately.** probably, often, sometimes — never absolutes about complex topics.

What Cash never does

- Flatter ("amazing!", "great job!"), promise wealth, moralize about money.
- Reference real brands or living celebrities as endorsements.
- Surface family financial details. (Hypothetical scenarios only.)
- Pretend the world is fair. Cash is honest about systemic factors without becoming a politics class.

> *When in doubt, work one of these into the script: Which people, and how do you know? · Being wrong on Day 1 is the deal. · Revenue is loud. Contribution margin is true. · A little less wrong, every week.*

STRAND OUTCOMES

Eight Strands. One Year. Verifiable Outcomes.

Cash to Company runs the same eight strands K-12. Each year deepens the demonstration. The Grade 6 version of each strand is below.

Code	Strand	Grade 6 demonstrated outcome
BAVC	Business Awareness and Value Creation	Identify a business problem, propose a value-creation hypothesis, and revise it with customer evidence.
PSIG	Problem Solving and Idea Generation	Generate, screen, and refine ideas; document why one was chosen and the others were not.
MFL	Money and Financial Literacy	Compute revenue, variable cost, contribution margin, and breakeven for a real product or service.
CBM	Customers, Branding, Marketing	Build a persona from interview evidence; design honest messaging; A/B test two claims.
OSO	Operations, Systems, Organization	Design a simple weekly operating cadence with named roles, handoffs, and a feedback loop.
LTO	Leadership, Teamwork, Ownership	Run and document a team meeting; resolve one disagreement using shared evidence.
ESL	Ethics, Safety, Legal Awareness	Identify the line between persuasion and manipulation; flag one borderline claim and rewrite it honestly.
LRCI	Launch Readiness and Continuous Improvement	Pilot, measure, and document at least three iterations with rationale and what changed.

STANDARDS ALIGNMENT

Six Benchmarks This Year

Standards are cited at the benchmark level. Honest gaps are named when they exist.
The Capstone artifact addresses each one.

Benchmark	What students must demonstrate
Jump$tart 2 (Spending & Saving) 8-1	Identify ways to deposit, store, and pay for goods and services.
CCSS-ELA SL.6.1	Engage effectively in collaborative discussions; build on others' ideas.
CASEL Self-Management	Set and monitor goals; manage time.
C3 D2.Eco.4.6-8	Describe the role of competition in the determination of prices and wages.
CASEL Relationship Skills	Establish and maintain healthy relationships; communicate effectively.
Jump$tart 6 (Financial Decision Making) 8-2	Identify ways that consumers may avoid making poor decisions.

HOW TO READ THIS TABLE

Each lesson cites at least one of these benchmarks. Each Capstone checkpoint addresses two or more. The Teacher Guide includes a per-lesson standards crosswalk.

"Standards aren't a cage. They're a list of moves you're going to be glad you can make. Pick one. Practice it. Move on."

— CASH

CAPSTONE RUBRIC (4-POINT)

How We Score the Capstone

The Capstone artifact is scored on four traits, each on a 4-point scale. Honest, specific, decision-oriented work earns the high marks. Generic or assumption-laden work earns the low ones.

Trait	1 — Emerging	2 — Developing	3 — Proficient	4 — Advanced
Evidence quality	Mostly assumptions; few or no quotes.	2-3 interview quotes; partial evidence.	5+ direct quotes; varied sources; coded patterns.	Triangulated quotes plus behavioral observation; counter-evidence acknowledged.
Per-customer math	Confused costs; no contribution margin.	CM computed but with errors; one price scenario.	Correct CM and breakeven; clear pricing rationale.	CM under multiple price scenarios; LTV-lite reasoning.
Honest messaging	Vague or misleading claims.	Some specifics; some unsupported claims.	All claims supported; clean ethics check.	A/B-tested copy with rationale; resists clever-but-borderline phrasing.
Feedback system	One-time check; no documentation.	Ad-hoc feedback; partial revisions.	1-week feedback loop with 3 documented changes.	Sustained loop plus signal-vs-noise analysis plus revision log.

CALIBRATION NOTE

Score honestly. A "3" means the student met the standard the way an adult professional would. A "4" means they did something a working entrepreneur would be proud to show. Withhold "4" unless the work earns it.

SENSITIVITY AND FAMILY ENGAGEMENT

What We Don't Ask. What We Always Frame.

Money is a tool, not a virtue. Some students live in households with credit-card debt, low or no banking access, or active financial stress. The curriculum is built so that none of those students is asked to disclose, perform, or apologize for their family situation.

Rules of the room

- **Never ask about family money.** No questions about parents income, debts, accounts, or banking status.
- **Use neutral hypotheticals.** "For a sample family with a $4,000/month take-home" — not "your family."
- **Decouple wealth from worth.** Cash never says "everyone can be rich." Cash says "you will be a clearer thinker about money no matter what you end up doing."
- **Name systemic factors honestly.** Wage gaps, geography, and luck shape outcomes. The skill we build is the skill in the student hands.
- **Protect the venture.** A student Capstone is theirs. We don't require they share revenue or family contribution. The artifact is the work, not the bank account.

Family engagement

Parents get one well-framed question per quarter — never a quiz, never a money-disclosure prompt. The default frame is curiosity ("What did you notice about your customers this week?"), not interrogation ("How much did you make?").

"Money is a tool. The question is not whether your family has a lot of it. The question is what you do with the moves we are practicing — interview, math, message, listen — wherever your starting line happens to be."

— CASH

ACTIVITY INDEX

Ten Activities. One Notebook.

Every activity in this book is built to be done with a pencil, your own evidence, and the questions Cash keeps asking. Skip nothing. Date everything. Re-read in three months.

No.	Activity	What you will do
01	Day 1 Customer Assumption	One sentence, one card. Don't try to be right; try to be specific.
02	Open vs. Leading Questions	Rewrite five leading questions into open ones. Practice on a partner.
03	Coding Patterns from Transcripts	Highlight surprises, frustrations, wishes. Tally them. Find the pattern.
04	Persona Pack v1	Combine evidence into one specific person — name, behaviors, top frustration.
05	Variable Cost per Unit	From a real receipt, compute the cost per one of the thing you sell.
06	Contribution Margin Worksheet	Price minus variable cost. Decide if it covers your fixed costs.
07	Two-Message A/B Test	Two honest messages. Three-day test. Report the winner and why.
08	Persuasion vs. Manipulation Line	Sort 10 ad claims onto a line. Defend your placement.
09	1-Week Feedback Loop	Collect, code, and act on feedback. Document three changes.
10	Final Capstone Defense	Five slides. Five minutes. Show the moves you made.

NOTEBOOK SETUP

Get a single notebook for the whole year. Number every page. The first 5 pages are your Vocabulary Spine. The last 5 pages are your Day-1 Assumptions (you will come back to those). Everything in between is your work.

Notebook checklist

- **Title page** — your name, your venture working-title, today's date.
- **Vocabulary spine** — 5 pages reserved for definitions you will add as we go.
-

Customer notes — one section for interview transcripts. Use direct quotes, with initials and dates.

- **Math section** — receipts taped in, per-unit computations, contribution margin scratch work.
- **Messaging section** — drafts of two-claim A/B tests, with what won and why.
- **Feedback log** — one page per week of your feedback system, with the three changes you made.

WORKED EXAMPLE

Worked Example: Roles That Save Time

Maya runs a small backyard car-wash on Saturdays with three friends. Last weekend, every kid did every job. They washed nine cars in five hours. They argued twice. Two cars came out streaky. Maya's notebook says: "Same kid greeted, soaped, rinsed, and took the money. Bottleneck: the towel-dry. Decision: split into roles."

This week, Maya assigns roles. Greeter, soaper, rinser, dryer, money. They wash twelve cars in five hours. Zero arguments. No streaks. Same humans. Different system.

WHAT TO COPY

The move here is not the answer. It is the structure: specific number, specific person, specific decision. Use that pattern in your own venture this quarter.

> *"Most adults skip this. You won't. Pick one customer. Compute one number. Decide one thing." — Cash*

END-OF-QUARTER REFLECTION

Four Quarters. Same Five Questions.

At the end of every quarter you will answer the same five questions. The answers should look different over time. Reread the previous quarter before you write a new one.

1. **Which people did you talk to this quarter, and what did they actually say?**

   Specific quotes, initials, dates. Resist the urge to summarize.
2. **What did you change in your venture because of evidence?**

   Name the change. Name the evidence that caused it.
3. **What is one number you know better now than three months ago?**

   Variable cost per unit. Contribution margin. Anything quantitative.
4. **What is a claim you made that you would take back?**

   Be honest. The claim does not have to be public. The honesty is the move.
5. **What would Cash ask you about all of this?**

   "Which people, and how do you know?" is always available. Find your own version.

> *"Reflection is not a feeling check-in. It is a memory tool. The you in three months wants to know what the you today learned. Write it down so future-you can use it."*
>
> — CASH

One promise.

Cash to Company makes one promise: students who move through this program will be clearer thinkers about money and entrepreneurship — no matter what they end up doing for a living.

We do not promise wealth. We do not promise success. We promise clarity.

"Most adults run their lives without a system. You won't."

— CASH, GRADE 6
