a FlexLifeFi K-12 program

Eight Scripts. One Cash.

Hook, content arc, classroom CTA, and 9-sec Shorts cut for each.

Grade 12 year theme — Launch-Ready Entrepreneurship.
The 9-12 band is built for the adults who will scrutinize: parents, teachers, administrators.

CONTENTS

Inside this volume

Grade 12 · Cash Video Scripts · the magazine version of the master document, set for adults to read end-to-end.

01 Video 1 — "Three Doors, One Room" (Week 1, Unit 1 Launch)

02 Video 2 — "The Premortem" (Week 4)

03 Video 3 — "The Journal Is a Forecast About You" (Week 9, Unit 1 Close + Unit 2 Open)

04 Video 4 — "Three Statements That Tell the Truth" (Week 12, Unit 2)

05 Video 5 — "Five Real Conversations" (Week 19, Unit 3 Launch)

06 Video 6 — "The 90-Day Plan and the Honest Variance" (Week 30, Unit 4 Launch)

07 Video 7 — "The Honest Decision" (Week 33, Unit 4)

08 Video 8 — "Defense Day, and What Comes Next" (Week 36, Graduation)

09 Video 1 — "Three Doors, One Room" — Upgrade

10 Video 2 — "The Premortem" — Upgrade

11 Video 3 — "The Journal Is a Forecast About You" — Upgrade

12 Video 4 — "Three Statements That Tell the Truth" — Upgrade

13 Video 5 — "Five Real Conversations" — Upgrade

14 Video 6 — "The 90-Day Plan and the Honest Variance" — Upgrade

15 Video 7 — "The Honest Decision" — Upgrade

16 Video 8 — "Defense Day, and What Comes Next" — Upgrade

17 End-of-script Brand Stamp (G12 graduation variant)

GRADE 12 · CASH VIDEO SCRIPTS

Eight Scripts. One Cash.

Founder-defensible plans built on evidence, not enthusiasm.

12

Eight short videos, one per major Grade 12 milestone. Each script targets 2:30–3:00 finished runtime, 350–420 spoken words. Scripts include a hook, content arc, and a CTA (call to action) that lands in a classroom assignment or journal prompt. Voice and personality follow the Cash Mascot Style Guide — 9-12 voice means full multi-sentence arguments, vocabulary including unit economics, runway, premortem, MVP. Cash never says "amazing," "boss up," "everyone can be rich," "easy money," or "just believe." Cash always asks: which people, and how do you know?

WITH CASH - GRADE 12 SCRIPT SET

"Eight scripts, one Cash. Each ends in a CTA you can teach Wednesday."

Format conventions: - **[VISUAL]** = animated visual cue. - **CASH:** = spoken dialogue. - **[SFX]** = sound effect or music cue.

SCRIPT

Video 1 — "Three Doors, One Room" (Week 1, Unit 1 Launch)

> "An MVP is the smallest test that could change your mind. It's not a v1."
>
> - CASH, GRADE 12

GRADE 12 · 2:30–3:00 · CASH VOICE

Runtime target: 2:50 **Strand mapping:** BAVC + LRCI

VISUAL Cash sits at a small wooden desk. Three doors animate behind. Each door has a different label appear: "VENTURE A," "VENTURE B," "VENTURE C."

CASH: Hey. Welcome to the last year of this program. Thirteen years. We've come a long way. This year you're going to do something most adults never do, even the ones who run businesses. You're going to compare three ventures on paper before you commit to one.

VISUAL A spreadsheet template appears with three columns.

CASH: Here's why that matters. Most people start a business by falling in love with one idea and never asking what they didn't pick. They don't know what they passed up. They don't know what their idea has to beat. So when it gets hard — and it gets hard — they don't have anything to compare against. They just have feelings.

VISUAL Two thought bubbles appear above one founder figure. One bubble shows the original idea; the other shows three doors faded out.

CASH: A venture portfolio is a thinking artifact. It's not a list of three businesses you'll run. It's a structure for asking the same hard questions about each one — who's the customer, what would have to be true, what's the smallest test, what do you bring — and seeing which idea survives the questions best.

VISUAL Three doors get evaluated. Two get crossed out; one stays.

CASH: Now, here's the thing. The door you pick on Day 1 is not necessarily the door you walk through in May. We have pivot windows in this program at Weeks 9, 18, and 27. Most of you won't pivot. The point is that the option exists, and that you check yourself against the alternatives.

VISUAL A calendar shows three small "PIVOT WINDOW" markers across the year.

CASH: Some of you arrive this year with a venture you've been running since freshman year. Good. Build the portfolio anyway. Compare it. The ones who do that find out something about their venture they didn't know.

VISUAL Cash leans in.

CASH: And some of you arrive without an idea at all. Also good. Don't try to be right today. Try to be specific. What do people ask you to help them with? What's something annoying nobody fixes? Start there.

VISUAL A blank Portfolio one-pager template appears.

CASH: One last thing. The question you're going to hear from me, from your teacher, from each other — over and over until it's reflex — is which people, and how do you know? It's been in this program since kindergarten. By June, you'll ask it without thinking. That's the year.

CLASSROOM CTA

"Build your three-venture portfolio. Pick one. Write a six-to-eight sentence defense of why this door, not the other two."

VISUAL Cash waves. Fade.

SCRIPT

Video 2 — "The Premortem" (Week 4)

GRADE 12 · 2:30–3:00 · CASH VOICE

Runtime target: 2:45 **Strand mapping:** PSIG + LRCI

VISUAL Cash holds up a calendar. Pages flip forward. December 12 months from now lands on screen.

CASH: Quick game. It's December of next year. Your venture is dead. Walk me through what happened.

VISUAL A blank "FAILURE STORY" page appears.

CASH: That's the move. It's called a premortem. You imagine the venture has already failed, and you work backward. Why past tense? Because past tense reads like analysis. Future tense — what could go wrong — reads like anxiety. Past tense gets you specifics. Anxiety gets you nothing useful.

VISUAL Two columns appear. Left: ANXIETY ("what could go wrong"). Right: ANALYSIS ("what did go wrong").

CASH: Here's what bad premortems look like. We ran out of money. That's a symptom. Customers didn't come. That's a symptom. The premortem only earns its keep if you push past the symptom to the cause. We ran out of money in month four because customer acquisition cost was three times what I assumed and I had no plan for lowering it. That's specific. You can act on that this month.

VISUAL A symptom-versus-cause diagram. A tree with leaves labeled symptoms and a root labeled cause.

CASH: Most adults skip this. They think planning is for optimists. The premortem is what professional decision-makers do — military, surgeons, founders who've been around. They name the failure mode early so they can spend the next twelve months not doing it.

VISUAL Cash holds up a card: TOP 3 CAUSES.

CASH: You're going to do this for all three of your portfolio ventures. Three premortems. Ten minutes each. Pick the most likely cause for each. Name a specific action you're taking this month to make that cause less likely.

VISUAL Three cards line up: VENTURE A (premortem), VENTURE B (premortem), VENTURE C (premortem).

CASH: Here's what I want you to notice. The premortem will scare you a little. Good. The point isn't to be brave. The point is to be honest. A founder who can name the way their venture might die is in better shape than a founder who can't.

VISUAL Cash points at the camera.

CASH: Don't make up a winner. Decide what to test next.

CLASSROOM CTA

"Run a premortem on each of your three ventures. Identify the most likely cause of failure for your top venture. Name one action you'll take this month."

[Fade.]

SCRIPT

Video 3 — "The Journal Is a Forecast About You" (Week 9, Unit 1 Close + Unit 2 Open)

GRADE 12 · 2:30–3:00 · CASH VOICE

Runtime target: 2:55 **Strand mapping:** PSIG + LTO

VISUAL Cash flips a notebook open. Blank pages.

CASH: **Today we talk about the artifact most students skip and most successful founders keep. It's a journal. Specifically, your founder's journal. One entry a week, every week, until June.**

VISUAL A weekly calendar fills in with small notebook icons across 36 weeks.

CASH: **I know. The word journal sounds soft. This isn't a feelings notebook. It's a forecast about you. Whether you write the entries you said you'd write — that's the most predictive number in your year. Better than your grades. Better than your idea. Better than your pitch. The students who do the weekly entry land their Defense. The ones who don't, struggle.**

VISUAL Two student figures animate. One has 30 weekly entries; the other has 4. The first stands at a podium confidently; the second hesitates.

CASH: **Four prompts. Take ten minutes a week. What evidence did I gather? What did I change my mind about? What's my most fragile assumption right now? What am I doing next week?**

VISUAL Four prompt cards stack on screen.

CASH: **Note the rules. Evidence means counts, quotes, screenshots, observations. Not feelings. Change of mind means a real revision. If nothing changed, write nothing changed and here's why I'm worried. That's the entry. Fragile assumption updates weekly. Watch your own pattern. Next week names one or two specific moves, not a vibe.**

VISUAL The four prompts annotate with examples.

CASH: **Here's what nobody tells you. Most adults can't tell you what they changed their mind about in the last year. They didn't track it. They're running on the same assumptions they had a year ago. You won't be that.**

VISUAL A pile of notebooks stacks up across 12 months.

CASH: **By Defense Day, you'll have at least ten entries. One of them will document a real pivot or a decision not to pivot, with reasoning. The panel will ask you to walk through it. The honest entries will carry you. The performative ones will get caught.**

CLASSROOM CTA

"Write your first founder's journal entry. Ten minutes. Four prompts. Set the day and time of your weekly entry on the inside cover of your journal."

[Fade.]

SCRIPT

Video 4 — "Three Statements That Tell the Truth" (Week 12, Unit 2)

GRADE 12 · 2:30–3:00 · CASH VOICE

Runtime target: 2:50 **Strand mapping:** MFL

VISUAL Cash stands in front of three large sheets of paper labeled P&L, CASH FLOW, BALANCE SHEET.

CASH: **Here's a story I made up to be true. A small services venture booked two hundred thousand dollars in revenue last year. Their P&L showed forty thousand in profit. They were profitable on paper. In October, they ran out of cash and almost shut down.**

VISUAL A simplified P&L glows green ("$40K profit"). Beside it, a cash flow chart shows October as deep red.

CASH: **How can both be true? Because customers paid late. The work was done; the invoices went out; the cash didn't arrive when the rent was due. Profitable on paper, broke in real life.**

VISUAL A clock and a calendar animate together. Money "leaving" hits before money "arriving."

CASH: **This is why we read three statements, not one. Each tells a different truth.**

VISUAL Three statements line up with three questions.

CASH: **The P&L answers: am I profitable? It's revenue minus expenses over a period. The cash flow statement answers: am I going to run out of money? It tracks when cash actually moves. The balance sheet answers: what do I own and owe? It's a snapshot at a point in time. Read one, you get a third of the picture. Read all three, you start to see what's actually going on.**

VISUAL Cash drags the three statements together. They snap into a single arrow.

CASH: Here's the move that separates founders who last from founders who don't. Three-statement consistency. The profit on the P&L flows into equity on the balance sheet. The cash on the balance sheet matches ending cash on the cash flow. When all three tie together, you can trust your own numbers. When they don't, you don't actually know your business.

VISUAL Three statements showing arithmetic ties. Arrows connect numbers.

CASH: Most adults running small ventures can't do this. They read revenue and that's it. Revenue is loud. Cash flow is quieter. The balance sheet is quietest. The quiet ones tell you whether you're alive next month.

VISUAL Cash holds up the volume control labeled "Revenue," and turns it down. The other two get louder.

CASH: This year, you're going to build all three for your venture. By Defense Day, you'll be able to walk a non-finance adult through your pack and answer their questions. That's the bar.

CLASSROOM CTA

"Set up the three blank statement templates for your venture. Fill in the row labels for the P&L. We'll build the cash flow next week."

[Fade.]

SCRIPT

Video 5 — "Five Real Conversations" (Week 19, Unit 3 Launch)

GRADE 12 · 2:30–3:00 · CASH VOICE

Runtime target: 2:50 **Strand mapping:** CBM + ESL

VISUAL Cash sits across from a series of empty chairs that fade in one at a time. Each has a name tag: "ADULT 1," "ADULT 2," "ADULT 3," "ADULT 4," "ADULT 5."

CASH: **This unit, you have a job. Five real conversations with five real people who are not in this classroom. By "real" I mean: a parent's coworker, a coach, a neighbor, a teacher in another department, a small-business owner — anyone who could conceivably be a customer or know one.**

VISUAL Each empty chair fills with a different stylized adult figure.

CASH: **No classmates playing the role. No anonymous internet polls. Five real conversations with five real adults. I know — that sounds like a lot. It isn't. One a week from Week 19 to Week 23. That's the plan.**

VISUAL A 5-week calendar with one conversation per week.

CASH: **Here's what most students get wrong. They go in to sell the venture. They explain. They pitch. They argue when the customer pushes back. That's not a conversation. That's a presentation. The customer leaves polite, and you leave with no useful evidence.**

VISUAL A scene of a student pitching at an adult. Adult nods politely. A "USELESS EVIDENCE" stamp drops.

CASH: **The move is structured listening. Five questions. Tell me about the last time you dealt with this kind of problem. What was hard about it? What did you do? What would have been ideal? Would you tell me one more story like that?**

VISUAL The 5 questions appear as cards.

CASH: **Notice what's not in those questions. There's no "would you buy this?" There's no "do you think my idea is good?" Customers are bad at predicting their own future behavior. They're great at telling you what they actually did last week. So you ask about last week, not next week.**

VISUAL Two arrows. One labeled "WHAT THEY'D DO" gets crossed out. The other, "WHAT THEY ACTUALLY DID," gets a check mark.

CASH: Your goal in every conversation is the surprising answer. If nothing surprised you, you led the witness. The point of these five conversations is to come back with something that contradicts what you thought.

VISUAL A card flips: "I WAS WRONG ABOUT __."

CASH: This is hard. The first one is the hardest. Start with someone you trust. A teacher in another department. A parent's friend. After one, you'll do the rest.

CLASSROOM CTA

"List your five people, with name, relationship, and channel. Schedule the first conversation this week. Document the surprising answer in your journal within 24 hours."

[Fade.]

SCRIPT

Video 6 — "The 90-Day Plan and the Honest Variance" (Week 30, Unit 4 Launch)

> "I don't know either. That's why we test."
>
> - CASH, GRADE 12

GRADE 12 · 2:30–3:00 · CASH VOICE

Runtime target: 2:55 **Strand mapping:** OSO + LTO

VISUAL Cash holds up a 12-week calendar. Each week has a single sentence in it.

CASH: **Today we build a 90-day plan. Twelve weeks. One priority per week. Owner. Metric. Target. Actual. That's the format.**

VISUAL A 12-row template animates with five columns.

CASH: **Most adults hate planning because it feels fake. They write a plan, ignore it, and never look at it again. They're not wrong about the plan. They're wrong about the routine.**

VISUAL Two figures. Founder A consults the plan weekly. Founder B's plan gathers dust. After 12 weeks, Founder A has pivoted twice on real signals. Founder B has the same vision and zero customers.

CASH: **Here's the thing. Planning isn't where the value is. Variance reporting is. Every Friday for four weeks — Weeks 31 to 34 — you sit down with your plan and write what actually happened. Plan. Actual. Variance. Root cause. Adjustment.**

VISUAL A variance report template fills in.

CASH: **The honesty part is hard. There's a temptation to over-report green so the page looks tidy. There's also a temptation to over-report red so you sound humble. Both are wrong. Honest doesn't mean pessimistic. Honest means accurate. The point of variance is to surface what you didn't see coming, so you can do less of it next week.**

VISUAL A green-filled report and a red-filled report both stamp REJECTED. A balanced report stamps ACCEPTED.

CASH: **Here's the rule that separates founders who learn from founders who don't. Symptom isn't root cause. I was busy isn't a root cause. I was busy describes how the week felt. The root cause is I underestimated how long the landing-page testing would take, because I'd never used that tool before. That's specific. You can act on it.**

VISUAL Symptom-versus-cause tree. Symptom is leaves. Root cause is at the base.

CASH: **This is the operating discipline of every business that lasts. It is not glamorous. It is not visible from outside. The founder who runs the variance every week — privately, weekly, without fail — runs a tighter ship than the one who only checks in when something is on fire.**

VISUAL Cash holds up a small badge: "WEEKLY VARIANCE — KEPT THE STREAK."

CASH: You'll show this at Defense. Four reports across four weeks. Honest. Specific. The Decision Quality criterion will partly draw on whether your variance reads like a founder paying attention or a founder going through the motions.

CLASSROOM CTA

"Build your 12-week plan. One priority, one metric per week. Run your first variance report next Friday and bring it Monday."

[Fade.]

SCRIPT

Video 7 — "The Honest Decision" (Week 33, Unit 4)

GRADE 12 · 2:30–3:00 · CASH VOICE

Runtime target: 2:55 **Strand mapping:** LRCI + LTO + ESL

VISUAL Cash sits in front of a board with three doors: LAUNCH · PIVOT · SHELVE.

CASH: It's late in the year. You're staring at the work you've done since September — the portfolio, the journal, the financial pack, the conversations, the brand, the plan, the variance reports. Now you have a decision to make. The one this whole year was for.

VISUAL Three doors hover. Cash stands between them.

CASH: Three options. Launch — continue past graduation. Pivot — change the model and continue. Shelve — stop, with reasons. All three are valid. All three earn full credit on the Decision Quality criterion if defended on the evidence.

VISUAL Three doors with checkmarks beneath each.

CASH: Some of you have been told, somewhere along the line, that the only successful outcome of a year like this is a launch. That's not true here. The honest decision is the right decision. Forcing a launch onto thin evidence is the more expensive mistake. A clean shelve is a real result. A defended pivot is a real result. The point was the thinking.

VISUAL A bar chart: "DECISION QUALITY" with three equal bars labeled LAUNCH, PIVOT, SHELVE.

CASH: Some of you arrive this week confident. Good. Pressure-test it. What's the evidence behind your decision? What did you consider and reject? What would change your mind? A defense that survives those three questions is a defense that holds up at the panel.

VISUAL Three questions appear, each next to a checkmark column.

CASH: Some of you arrive this week genuinely unsure. That's also good. Unsure means the evidence is genuinely mixed. Read the journal. Look at the cash flow. Look at the customer conversations. Look at the variance. The decision is in there. It usually is.

VISUAL A montage of artifacts — journal, financial pack, conversation tracker, variance report — pulsing on screen.

CASH: And here's the part nobody talks about. There's a version of you that wants to launch because launching feels like winning. There's another version that wants to shelve because shelving feels safer. Neither feeling is the decision. The decision is what the evidence says. The Defense panel can tell the difference. The rubric was built for this exact moment.

VISUAL A scale balances "FEELING" against "EVIDENCE." Evidence wins.

CASH: Some of you will pick a decision your family wouldn't pick for you. That's allowed. This is your venture and your year. The honest answer, defended cleanly, is the answer.

CLASSROOM CTA

"Draft your Launch-or-Learn decision in one paragraph. List three pieces of evidence behind it. List one alternative you considered and rejected. Bring it to Friday's mock Defense."

[Fade.]

SCRIPT

Video 8 — "Defense Day, and What Comes Next" (Week 36, Graduation)

GRADE 12 · 2:30–3:00 · CASH VOICE

Runtime target: 2:55 **Strand mapping:** All eight strands · Graduation

VISUAL Cash stands in a wider, warmer-lit space than usual. There's a row of chairs facing a small podium. Late-afternoon light.

CASH: **This is the last video. Defense Day is here, or just behind you. So here's what I want to say.**

VISUAL A montage flashes — Cash from K-2, 3-5, 6-8, 9-12 — each version younger, each lighter.

CASH: **Thirteen years ago, you started this program. Most of you were five or six. Some of you joined later. Either way: you've been asked the same question more times than you can count. Which people, and how do you know? You probably said it in your sleep at some point. You ask each other now. By June, it's reflex.**

VISUAL The classic sign appears: WHICH PEOPLE, AND HOW DO YOU KNOW?

CASH: **Here's what that question does. Every claim you make about the world, for the rest of your life, gets examined against it. Every job interview where someone asks "what's your strength?" gets answered with evidence instead of a vibe. Every salary negotiation gets**

grounded in a number you actually know. Every venture you consider, ten or twenty years from now, gets the same treatment as the three doors on Day 1 of this year. The question doesn't leave you. That's the program.

VISUAL A timeline labeled with future moments — first job, first lease, age 30 decision, age 50 decision — each with a small "WPHDYK" tag.

CASH: **Some of you are launching. That's a decision, defended on evidence. Run hard, and don't stop reading the variance.**

VISUAL One door labeled LAUNCH glows.

CASH: **Some of you are pivoting. The model shifts. The thinking continues. Ship the next version with the same discipline.**

VISUAL A second door labeled PIVOT glows.

CASH: **Some of you are shelving. Maybe forever, maybe for now. The work you did this year sits on a shelf — not a failure, a finished thinking artifact. You may pull it down at twenty-six and realize the world changed enough to make it real. Or you may leave it where it is and start something new. Either is fine.**

VISUAL A third door labeled SHELVE glows. All three doors are equally bright.

CASH: **This is the end of the program. We don't promise wealth. We don't promise success. We promise clarity — about money, work, risk, and the kind of teammate, leader, and decider you want to be. That clarity is yours now. It's not a thing you check at the door of high school.**

VISUAL Cash takes a small bow. The class of 2026 stands behind, in robes.

CASH: **Twelve years of being asked which people. One year of answering it like an adult. Don't sell. Show. A little less wrong, every week. Most of all — be specific.**

VISUAL Cash waves slowly. Lights dim.

CASH: Congratulations. Now go.

CLASSROOM CTA

"Walk into your Defense, or your post-Defense week, and answer the question one more time, out loud, on the record: Which people, and how do you know? File your Launch-or-Learn decision. Then go."

[Fade to a final card: "Thirteen years. Eight strands. One question. Welcome to whatever's next."]

UPGRADE LAYER (added by Brand & SMM Director, 2026-04-25)

9-12 cross-script conventions apply. **Grade 12 is graduation year.** Tone shift in V8: more reflective, more "old friend" — Cash should sound like an old friend who's seen them grow up. (Per Style Guide: "by Grade 12, students should feel a sense of having grown up with Cash.")

AN INTERLUDE · GRADE 12

"Most adults skip t step. You won't."

the band's working assumption.

2

SCRIPT

Video 1 — "Three Doors, One Room" — Upgrade

- **NEW HOOK:** [VISUAL: A teen at a hallway intersection. Three doors: COLLEGE / JOB / VENTURE.] **CASH:** "Quick check-in. Three doors. Same room. The room is your life. Pick the door, but know — you can come back to the hallway."
- **Shareable Cash line:** "Three doors. One room. The room is your life."
- **9-second Shorts cut:** Three-door reveal → "Same room. Different door."
- **60-sec cut:** when each door makes sense, with examples — for school-account share.
- **Classroom CTA:** Write your post-graduation path-letter. Three doors named. The one you're walking through. The one you'd walk through if door 1 closes.

SCRIPT

Video 2 — "The Premortem" — Upgrade

- **Shareable Cash line:** "A premortem is cheaper than a postmortem." (Echoes G10 V4 — band continuity.)
- **9-second Shorts cut:** Imagined-failure scene → 5 mitigation cards.
- **Classroom CTA:** Premortem your post-graduation plan. Five risks. One mitigation each.

SCRIPT

Video 3 — "The Journal Is a Forecast About You" — Upgrade

> **“Profit is an opinion. Cash is a fact.”**

- CASH, GRADE 12

- **NEW HOOK:** [VISUAL: An old journal. Cash flips back to a Day-1 entry, then a Year-1 entry, then a Year-3 entry.] **CASH:** "Quick check-in. The journal isn't a record of what happened. It's a forecast of who you're becoming."
- **Shareable Cash line:** "The journal is a forecast about you."
- **9-second Shorts cut:** Journal entries flipping forward in time.
- **Classroom CTA:** Read your Day-1 entry from Grade 9. Write a 1-page note to that version of you.

SCRIPT

Video 4 — "Three Statements That Tell the Truth" — Upgrade

- **NEW HOOK:** [VISUAL: P&L, balance sheet, cash flow. Each one labeled with what it tells you.] **CASH:** "Quick check-in. Three statements. Three different truths. Most adults only read one."
- **Shareable Cash line:** "P&L tells the story. Balance sheet tells the position. Cash flow tells the truth."
- **9-second Shorts cut:** Three-statements card flip → "Three truths. Read all three."
- **Classroom CTA:** Build all three for your venture. One page each. Bring them Wednesday.

SCRIPT

Video 5 — "Five Real Conversations" — Upgrade

- **NEW HOOK:** [VISUAL: Five chairs in a circle. Five different real-feeling adults sit one by one.] **CASH:** "Quick check-in. Five conversations. With real people. About what your venture really does."
- **Shareable Cash line:** "Five real conversations beat fifty hours of imagining." (Band echo of G9 V2.)
- **9-second Shorts cut:** Five chairs → five faces → "Real talk. Real venture."
- **Classroom CTA:** Schedule and run 5 customer conversations. Mom Test. Bring transcripts.

SCRIPT

Video 6 — "The 90-Day Plan and the Honest Variance" — Upgrade

- **NEW HOOK:** [VISUAL: A 90-day plan. Then 90 days pass. Variance highlighted.] **CASH:** "Quick check-in. Most adults skip the variance review. That's how the next 90 days look just like the last 90."
- **Shareable Cash line:** "The plan is the guess. The variance is the lesson."
- **9-second Shorts cut:** Plan → 90 days → variance reveal.
- **Classroom CTA:** Set 3 90-day metrics for your post-graduation life. Honest variance review at Day 90.

SCRIPT

Video 7 — "The Honest Decision" — Upgrade

- **NEW HOOK:** [VISUAL: A fork in the road. A teen stops, takes notes, writes the honest answer.] **CASH:** "Quick check-in. Most decisions get made on a feeling. The honest ones get made on a page."
- **Shareable Cash line:** "An honest decision is the one you can defend in writing."
- **9-second Shorts cut:** Fork → page → handwritten reasoning.
- **Classroom CTA:** Write your honest decision: kill, pivot, or commit. One page. Defend it.

SCRIPT

Video 8 — "Defense Day, and What Comes Next" — Upgrade

- **NEW HOOK:** [VISUAL: Cash, slightly older now (subtle — just a small notebook with more wear). A timeline of grades K to 12 zips by behind.] **CASH:** "Quick check-in. We've been together for thirteen years. I want to say something honest."
- **Shareable Cash line:** "You'll be a clearer thinker about money no matter what you end up doing."
- **9-second Shorts cut:** K-to-12 timeline montage → "13 years. One question. Ready."
- **Production note:** This is the brand's signature moment. Music: warm, restrained, only one swell on "thirteen years." This Short is what gets shared by graduating students on their personal accounts.

- **Classroom CTA:** Defense Day. 5-minute pitch. Three statements. One honest decision. One question for the panel.

SCRIPT

End-of-script Brand Stamp (G12 graduation variant)

[VISUAL: Cash to Company logo. Below: **"Which people, and how do you know?"** Below that, in smaller text: "See you out there." Soft chime.] 1.5-second hold.

ENDNOTES & STANDARDS

Citations and alignment

Grade 12 cites 3-6 standards across CCSS, Jump$tart, CEE, CASEL, and C3 frameworks. Detailed alignment lives in the master Standards Alignment Map.

1. **Jump$tart Coalition Personal Finance Standards (2021 ed.).** Spending and Saving; Credit and Debt; Employment and Income; Investing; Risk Management and Insurance; Financial Decision Making.
2. **Council for Economic Education (CEE).** Voluntary National Content Standards in Economics.
3. **CCSS-ELA, Grades 11-12.** W.11-12.1, W.11-12.4, SL.11-12.1, SL.11-12.4, RST.11-12.7.
4. **CCSS-Math.** N-Q.1-3 (Reasoning with Quantities), S-IC (Statistics & Inferences), F-IF (Functions), MP.4 (Modeling).
5. **CASEL Core Competencies.** Self-Awareness, Self-Management, Social Awareness, Relationship Skills, Responsible Decision-Making.
6. **C3 Framework for Social Studies State Standards.** Dimension 2 (Economics, Civics) at the high-school grade band.
7. **NGSS-ETS Engineering Practices.** ETS1 (Engineering Design) for the test-and-iterate spine of the year.
8. **Cash to Company Master Scope & Sequence.** 13 grades x 8 strands x 36 weeks; outcomes quoted verbatim from _master/00_Master_Scope_and_Sequence.md.
9. **Cash Mascot Style Guide.** 9-12 voice rules: multi-sentence arguments; vocabulary includes unit economics, runway, premortem, MVP; never flatters, never promises wealth.
10. **Sensitivity protocol.** No probing of family finances; financial scenarios framed as hypothetical for a sample household, business, or scenario.

One promise.

Cash to Company makes one promise: students who move t
program will be clearer thinkers about money and entrepren
matter what they end up doing for a living.

We do not promise wealth. We do not promise success. We pro

> **“Founder-defensible plans built on evidence, not enthusiasm.”**
