Eight short Cash videos for the year.

Grade K — Cash to Company: Cash Video Scripts

Eight short videos, one per major Grade K milestone. Each script targets 1:30–2:00 finished runtime, 250–320 spoken words. K videos are shorter than middle-school videos because kindergartners' attention is shorter. Visuals carry most of the meaning — assume a child cannot read on-screen text.

Format conventions:

- **[VISUAL]** = animated visual cue. Heavy use — this is the lesson at K.
- **CASH:** = spoken dialogue. K-band voice: 6–10 word sentences, concrete only.
- **[SFX]** = sound effect or music cue.

K-2 voice rules applied: short sentences, concrete only, no "evidence" word — instead "what did you see?" Repetition is friendly. CTAs are visual + verbal, not "go research."

Production notes (for the animator)

- **Heavy [VISUAL] use is the design.** Kindergartners cannot read on-screen text. Every word Cash says should be paired with a picture or motion that carries the meaning. Type appears for emphasis (the word HELMET) but is not the load-bearing element.
- **Cash's voice — calm, not hyper.** "Thoughtful older sibling," not "TV presenter." If a take sounds like a hyped-up children's-show host, redo it.
- **Repetition is the lesson.** When Cash says "penny, penny, penny," keep all three. Do not cut for time.
- **Visual palette.** Warm yellow, sky blue, soft pink, mint. No neon. No fast cuts. No flashing.
- **Safe content.** No real brand names. No real living celebrities. No food framed as "junk" or "good." Pretend food only in the cafe.
- **Closed captions.** Always. Even though most kindergartners cannot read them, family adults watching alongside need them.
- **Length.** 1:30–2:00 each. Resist the urge to expand. Short is the point.

UPGRADE LAYER (added by Brand & SMM Director, 2026-04-25)

This section sits below the canonical scripts and gives each video a hook upgrade, a shareable Cash line, and a 9-second Shorts cut. The original script copy is unchanged. Where a hook upgrade is applied, the animator should swap the new opener in for the existing "Hi, friend" line.

Cross-script K-2 conventions to apply to ALL eight scripts: - **Signature opener (replace any "Hi, friend" with):** Cash drops into frame from above (2-second visual gag). Cash bounces once. Cash says, **"Notice with me."** Then continues. - **Signature physical move:** the Notebook Tilt — Cash slowly turns its tiny notebook toward camera before each new word is named. - **CTA upgrade:** end every video with a 3-2-1 countdown the kids can do with the screen. "Three. Two. One. Tell a grown-up one helper. Go." - **Shareable line (per video, below):** the one Cash line a parent will repeat at the dinner table.

Video 1 — "Cash Says Hi" — Upgrade

- **First 3 seconds (NEW HOOK):** [VISUAL: A coin falls from the top of the screen, lands on the carpet, bounces, blinks open eyes.] **CASH:** "Notice with me." [Then existing line: "I'm Cash. I'm a coin. I help people too."]
- **Shareable Cash line:** "Helpers are a kind of business. A business helps people."
- **9-second Shorts cut:** 0:00 coin drops → CASH says "Notice with me. I'm Cash. Helpers help. Who helped you today?" Captions on. Vertical crop. End on "WHO HELPED YOU TODAY?" sign.

- **Concrete real-life example to add:** name three real-world helpers visible at the school the kid attends — bus driver, lunch cook, recess monitor. (Already in script — make it land in the first 30 seconds.)
- **Classroom CTA (5-min runnable):** Teacher: "Three... two... one — turn to your shoulder partner. Tell them ONE helper you saw today. Go."

CASH SAYS

Tell me what they said with their words.

Video 2 — "What Did the Helper Do?" — Upgrade

- **First 3 seconds (NEW HOOK):** [VISUAL: A close-up of a librarian's hand picking up a book — slow motion. No words.] **CASH:** "Notice with me. What did her hand just do?"
- **Shareable Cash line:** "That's noticing. We are noticers."
- **9-second Shorts cut:** 0:00 librarian-hand close-up → "Notice with me. She PICKED. She GAVE. That's a helper." End on the words PICKED and GAVE.
- **Classroom CTA (5-min runnable):** Pass out 5 picture cards of helpers. Each pair picks one and tells the class the verb — "the cook ____."

Video 3 — "The Four Coins" — Upgrade

- **First 3 seconds (NEW HOOK):** [VISUAL: Four coins drop and land in a row with a SOFT CLINK.] **CASH:** "Notice with me. Four friends."

- **Shareable Cash line:** "The dime is small but it's worth more than the nickel. I know. It's funny."
- **9-second Shorts cut:** Four coins drop → "Penny one. Nickel five. Dime ten. Quarter twenty-five. The dime is small but it's MORE than the nickel." This is the highest-virality K-2 cut — parents will share with the caption "wait til you hear the dime part."
- **Classroom CTA (5-min runnable):** Give each table a sorting mat. Three... two... one... sort the four coins. First table done says them out loud.

Video 4 — "Which Coin Is More?" — Upgrade

- **First 3 seconds (NEW HOOK):** [VISUAL: Two coins on a tilting see-saw. The dime side goes DOWN even though the dime is smaller.] **CASH:** "Notice with me. Wait — that's not right!"
- **Shareable Cash line:** "Look at the dots. Not the size."
- **9-second Shorts cut:** Tilting see-saw → "Quarter is more than penny. Dime is more than nickel. Look at the DOTS, not the size."
- **Classroom CTA (5-min runnable):** Two-coin "more" race. Pairs flip two coins, slap the bigger one. Teacher times 90 seconds.

Video 5 — "First, Next, Last" — Upgrade

- **First 3 seconds (NEW HOOK):** [VISUAL: A peanut-butter sandwich already-made on the plate. Cash sighs.] **CASH:** "Notice with me. We forgot a step!"
- **Shareable Cash line:** "Things have an order. Even getting dressed."

- **9-second Shorts cut:** Sandwich-already-made → freeze → rewind → "First. Next. Last." Sandwich rebuilds in order on screen.
- **Classroom CTA (5-min runnable):** Three-step body sequence — "First, hands on head. Next, hands on knees. Last, hands clap." Class does it together. Then ask: what is FIRST in your morning?

CASH SAYS

Notice, notice, notice. What did you see?

Video 6 — "Safe Helper, Safe Job" — Upgrade

- **First 3 seconds (NEW HOOK):** [VISUAL: A construction worker without a helmet — Cash looks worried, holds up a tiny helmet.] **CASH:** "Notice with me. Something's missing!"
- **Shareable Cash line:** "A rule is a kind word. A rule says: stay safe."
- **9-second Shorts cut:** Worker missing helmet → Cash hands them a helmet → "Safe helper, safe job. Helmet. Gloves. Wash. Stop sign."
- **Classroom CTA (5-min runnable):** "Safety walk" — point at any picture in the classroom of a helper. Name the safety rule. (No real adults named or singled out.)

Video 7 — "Welcome to Cash's Cafe" — Upgrade

- **First 3 seconds (NEW HOOK):** [VISUAL: A tiny "OPEN" sign flips. A bell rings.] **CASH:** "Notice with me. The cafe is open!"
- **Shareable Cash line:** "Kind words. Please. Thank you. You're welcome."
- **9-second Shorts cut:** Sign flips → role swap → "Take turns. Take turns. Take turns."
- **Classroom CTA (5-min runnable):** Open Cash's Cafe corner for 5 minutes. Three roles: shopkeeper, customer, napkin helper. Rotate every 90 seconds.

Video 8 — "Tell a Grown-up What You Saw" — Upgrade

- **First 3 seconds (NEW HOOK):** [VISUAL: A child runs up to a grown-up holding a drawing of a helper. The grown-up smiles.] **CASH:** "Notice with me. They did it. All year."
- **Shareable Cash line:** "Helpers help. Notice, notice, notice."
- **9-second Shorts cut:** Wall-of-drawings pan → child shows drawing → "I noticed a helper" → cafe scene. Title: "What kindergarten taught me about business this year."
- **Classroom CTA (5-min runnable):** Family Visit Day. Each child shows ONE helper drawing and ONE coin to a grown-up. Then plays one round of Cash's Cafe.
