> Onboarding is the year we earn the renewal.

For Cash Certified Teachers — the year-one experience, the routines that keep the program healthy, and the metrics that predict whether a teacher is still teaching Cash in year three.

Status. Effective 2026-04-25. Version 1.0. **Owner.** Customer Success / Cash Certified Teacher Program. **Audience.** Cash Certified Teachers (Year 1 and Year 2), customer-success leads at districts and OST sites, and onboarding coordinators at state DOEs.

> **One sentence summary.** Onboarding is not a sales motion. It is the year that turns a new Cash Certified Teacher into a confident classroom owner of the K-12 mascot arc — by Day 0 routines, Week-1 first-Monday opener, Quarter-1 Capstone milestone, and Year-1 portfolio review with badge and Year-2 mentor pairing.

The shape of the year (one paragraph)

Day 0 is the welcome email. Week 1 is the first Monday opener with the Cash Certified Teacher PD link landing in the teacher's inbox the same day. Weeks 2-4 are classroom-routines onboarding — the Wednesday work block playbook, the Friday share-out rhythm, and the first misconception-correction playback. Quarter 1 closes with the first Capstone milestone artifact and the first Family-letter trigger. Quarter 2 builds toward a school-wide Capstone showcase — Market Day, Pitch Night, Sprint Showcase, or Defense Day — that the principal and families attend. Year-end is a portfolio review and the Cash Certified Teacher Year-1 Badge. Year 2 begins with the teacher mentoring a Year-1 colleague.

Day 0 — the welcome email + the first link

The welcome email lands in the new teacher's inbox the day the Order Form (or pilot-license letter) is countersigned. It is short by design. The voice is the warm, hedging, plain language of the Master Brand Voice Guide.

WHAT'S IN THE WELCOME EMAIL

- One-line greeting using the teacher's first name.
- One sentence: "You have access to Cash to Company for the academic year. Your Week-1 plan is ready when you are."
- One link: the Cash Certified Teacher PD landing page (2-hour asynchronous module).
- One link: the grade-band Teacher One-Pager for the teacher's primary grade.
- One link: the Sensitivity Policy.
- Sign-off: "— The Cash to Company team."

The email does not contain a calendar booking widget, a Slack invite, or an upsell. The first action is voluntary: open the PD link or the one-pager.

WHAT FOLLOWS DAY 0

A second email lands 48 hours later if the PD has not been opened. The voice is identical. The link is the same. There is no escalation, no countdown, no "spots filling up" framing.

A third nudge lands at Day 7 if the PD remains unopened. After Day 7, the customer-success lead is notified to check in directly with the school's curriculum point-of-contact — never with a guilt frame. The teacher may have a reason. We ask.

DAY 0 METRICS WORTH WATCHING

- **Welcome-email open rate.** Target: 80%+ within 72 hours.
- **PD-link click rate.** Target: 60%+ within 7 days.
- **PD module completion rate.** Target: 70%+ within 14 days.

These are not gating metrics. A teacher who completes the PD in week 3 instead of week 1 is fine. They are leading-indicator metrics that tell us whether the welcome email is doing the work or whether we need to revise it.

Week 1 — the first-Monday opener and the Cash Certified Teacher PD link

The Cash Certified Teacher PD is 2 hours, asynchronous, and certificate-bearing. It is built to be completed in two 60-minute sittings or four 30-minute sittings, the teacher's choice.

WHAT THE PD COVERS

- The Master Brand Voice Guide, distilled to the 15 banned phrases card and the canonical phrases.
- The grade-band Teacher One-Pager and the year's 8-video map.
- The Monday opener / Wednesday work block / Friday share-out rhythm.
- The Sensitivity Policy in detail — what to do when a kid asks about family money, when a kid says something hustle-coded, when a kid asks if Cash is a real coin.
- The Capstone progression for the teacher's grade band, with sample artifacts.
- The Family-letter library and when to send each.
- The Voice-band drift signals — what to listen for in your own teaching that suggests the voice is sliding.
- The first-Monday opener script, in detail, with three contingency branches (kids responsive, kids quiet, kids skeptical).

THE FIRST-MONDAY OPENER — WHAT IT LOOKS LIKE IN THE ROOM

- 30 seconds: name the Monday-opener routine.

ONBOARDING PLAYBOOK

- 60 seconds: play the week's Cash video clip.
- 90 seconds: ask the canonical question — which people, and how do you know? — and listen.
- 60 seconds: name what you noticed in their answers.
- 30 seconds: name Wednesday's work block.

That is five minutes. The teacher does not perform; the teacher names the routine and asks the question.

Weeks 2-4 — classroom-routines onboarding and the first misconception-correction playback

The first three weeks after the first Monday opener establish the rhythm. The customer-success lead is in light contact — not heavy. The teacher does the teaching; the customer-success lead removes obstacles.

THE WEDNESDAY WORK BLOCK PLAYBOOK

- 5 minutes: name the work block goal in plain language.
- 10 minutes: walk the activity setup.
- 20-25 minutes: students work; teacher circulates.
- 5 minutes: collect, transition, set up Friday share-out.

The Wednesday playbook is grade-band specific and lives in the Cash Certified Teacher resource library. The customer-success lead does not coach the teacher on the playbook; the teacher reads it and runs it.

THE FRIDAY SHARE-OUT RHYTHM

- 3 minutes: students bring one artifact to the share-out.
- 8 minutes: 3-5 students show; one canonical-question prompt per share.
- 4 minutes: teacher names a pattern across the shares.

THE FIRST MISCONCEPTION-CORRECTION PLAYBACK

Cash teaches by surfacing kids' wrong beliefs and correcting them. In Week 2 or 3, the teacher will encounter a kid voicing one of the canonical misconceptions — "helpers do their job for free," "if you charge more you make more money," "side hustle is how everyone gets rich," depending on grade. The teacher's first misconception-correction is a milestone.

The customer-success lead asks the teacher in Week 4: what was the first misconception your students surfaced, and how did you handle it? The teacher's answer is captured (with permission) for the Cash Certified Teacher community library — and the teacher gets a small recognition for the contribution.

This is voluntary. Teachers who do not want their classroom moments captured say so. We don't push.

WEEKS 2-4 METRICS WORTH WATCHING

- **Monday-opener attendance to the routine.** Target: 4 of 4 weeks (or whatever the teacher's pacing allows).
- **Wednesday work block completion.** Target: 3 of 4 weeks.
- **Friday share-out completion.** Target: 3 of 4 weeks.
- **First misconception captured.** Target: by Week 4.

Quarter 1 — the first Capstone milestone and the Family-letter trigger

By the end of Quarter 1, students have produced a recognizable Capstone milestone artifact. For K-2 it's the start of the helpers wall. For 3-5 it's a logo, a price, or a one-page plan draft. For 6-8 it's a one-month ledger or a Day-1 customer assumption letter. For 9-12 it's a Business Model Canvas in progress.

THE QUARTER-1 MILESTONE CHECK

The customer-success lead reaches out to the teacher in Week 8 with two questions: 1. What did your students produce as their first Capstone artifact? 2. What's one thing you'd change about the first quarter?

The teacher answers in writing or in a 15-minute call, the teacher's choice. The customer-success lead listens, captures, and removes obstacles for Quarter 2.

THE FAMILY-LETTER TRIGGER

At the end of Quarter 1, every Cash Certified Teacher sends a Family-letter naming what students built and what to expect in Quarter 2. The Family-letter library has band-specific templates the teacher adapts.

The Family-letter is a customer-success milestone because it is the first time Families see Cash in their kid's homework or backpack. Family open rates and reply rates are leading indicators of program health.

QUARTER-1 METRICS WORTH WATCHING

- **First Capstone artifact produced.** Target: 80%+ of students by Week 8.
- **Family-letter sent.** Target: by Week 9.
- **Family-letter open rate.** Target: 60%+ where the school can track (district email systems vary).
- **Voice-band drift signal.** Customer-success lead reviews any Family-letter content the teacher shared (voluntarily) for hustle-coded language, cost framing, or banned phrases. This is light-touch, not punitive.

Quarter 2 — school-wide Capstone showcase prep

Quarter 2 builds toward the showcase. By the end of Quarter 2, every band has a deeper artifact:

- **K-2** — the helpers wall is full; the kid has a finished store-day artifact.
- **3-5** — a Market Day with a 30-second pitch and a signed debrief.
- **6-8** — the SOP, the break-even calculator, the Day-30 evidence letter.
- **9-12** — the Business Model Canvas finalized, the one-year P&L drafted, the venture sprint underway.

THE SHOWCASE PLANNING RHYTHM

- **Week 12:** customer-success lead and the teacher's principal or site coordinator confirm a showcase date and format.
- **Week 14:** Family invitations go out using the Family-letter showcase template.
- **Week 16:** showcase runs. Principal, families, and (where possible) one community panelist attend.

WHAT THE SHOWCASE LOOKS LIKE BY BAND

- **K-2** — short, family-mediated; kids show their store-day artifact and say one thing they'd change.
- **3-5** — a Market Day for peers and family; teacher emcees; debrief on the spot.
- **6-8** — Pitch Night format; 3-5 student pairs present per evening; community member on the panel.
- **9-12** — Defense Day; 5-10 minute pitches with 10-20 minutes of panel Q&A.

QUARTER-2 METRICS WORTH WATCHING

- **Showcase scheduled.** Target: by Week 12.
- **Family attendance rate.** Target: 50%+ of families represented (this is hard; we track it without judgment).
- **Principal attendance.** Target: yes.
- **Community panelist secured (Grade 6+).** Target: at least one.
- **Voice-band drift signal.** Customer-success lead reviews a sample of student artifacts (where the teacher shares) for hustle-coded language emerging in student work — and offers the teacher a Sensitivity Policy refresh if drift is visible.

Year-end — portfolio review and the Cash Certified Teacher Year-1 Badge

The year ends with a portfolio review and a recognition moment.

WHAT THE PORTFOLIO REVIEW COVERS

- A sampling of student Capstone artifacts (de-identified or with Family permission).

- The teacher's reflection on the year: what worked, what they'd change, one moment that surprised them.
- The teacher's plan for Year 2 — same grade, different grade, expanded participation.
- An honest conversation about whether to renew. We make it easy to say no.

THE YEAR-1 BADGE

Cash Certified Teachers who complete a full year with a portfolio review receive the Year-1 Badge. The badge is: - A digital credential the teacher can post on LinkedIn, email signature, or classroom website. - A small physical token (a Capstone Pin) sent to the teacher. - Eligibility for Year-2 mentoring (paid stipend or release time, depending on the Licensee's setting).

The badge is recognition, not gatekeeping. Teachers who don't complete the portfolio review still keep their Cash access through the license term; they simply don't carry the badge.

YEAR-END METRICS WORTH WATCHING

- **Portfolio review completed.** Target: 80%+ of Year-1 teachers.
- **Year-2 renewal intent.** Target: 75%+ intend to renew.
- **Mentoring interest.** Target: 30%+ are interested in mentoring a Year-1 teacher next year.

Year 2 — mentor pairing

Year-2 teachers are paired with Year-1 teachers. The mentor pair is the customer-success lead's most reliable retention tool.

THE MENTOR PAIR STRUCTURE

- **Mentor.** A Year-2 Cash Certified Teacher who completed a Year-1 portfolio review.
- **Mentee.** A Year-1 Cash Certified Teacher in their first year of running Cash.
- **Cadence.** Monthly 30-minute check-ins (in person or video), plus async messaging through the Cash Teachers community.
- **Stipend or release time.** Where the Licensee supports it. Where it doesn't, mentoring is a recognition role and mentors receive a Year-2 Mentor Pin.

WHAT THE MENTOR DOES

- Reviews the mentee's first Family-letter before it goes out.
- Sits in on (or watches video of) the mentee's first Monday opener and offers feedback in the Cash voice.
- Walks the mentee through the first misconception-correction.
- Pairs with the mentee on the Quarter-2 showcase planning.

- Provides a sounding board for sensitivity questions — what to do when a parent emails about a student's home situation, when a kid says something hustle-coded, when an admin pushes for a metric Cash doesn't measure.

YEAR-2 MENTOR METRICS

- **Mentor cadence held.** Target: 8 of 10 monthly check-ins.
- **Mentee retention.** Target: 85%+ of mentee teachers are still teaching Cash at end of Year 1 (mentor pairing is the biggest single lift on this metric).

Health metrics that predict 90-day teacher retention

The customer-success lead's job in the first 90 days is not to push activation; it is to watch four health signals and intervene gently when one drops.

THE FOUR 90-DAY SIGNALS

1. **Attendance to PD completion.** Did the teacher complete the Cash Certified Teacher PD in the first 14 days? If no by Day 30, gentle check-in. If no by Day 60, customer-success lead surfaces the obstacle.
2. **Capstone milestone completion at Quarter 1.** Did 80%+ of the teacher's students produce the first Capstone artifact by Week 8? If no, customer-success lead offers the Wednesday work block playbook walkthrough.
3. **Family-letter open rate.** Did the Quarter-1 Family-letter open rate clear 50%? If no, the customer-success lead reviews the letter copy with the teacher (voice drift, audience mismatch, send-time issue).
4. **Voice-band drift signal.** In any teacher-shared materials reviewed, did banned-phrase or hustle-coded language appear? If yes, the customer-success lead offers a Sensitivity Policy refresh — never punitively.

THE STRONGEST 90-DAY SIGNAL

The single strongest predictor of a Cash Certified Teacher still teaching Cash in Year 2 is **Family-letter open rate at Quarter 1**. When Families open the Quarter-1 letter, the program is visible at home. When the program is visible at home, the kid talks about it at dinner. When the kid talks about it at dinner, the teacher feels the program is working. When the teacher feels the program is working, the teacher renews.

PD completion correlates. Capstone milestone correlates. Voice-band drift inversely correlates. But the Family-letter open rate is the canary.

WHAT WE DO NOT MEASURE

- We do not measure how often the teacher posts about Cash on social media. (Not a health signal.)

- We do not measure whether the teacher referred another teacher. (Lagging indicator; nice to have.)
- We do not measure how many minutes of video each student watched. (We don't collect student data.)
- We do not measure NPS-style survey scores. (We ask qualitative questions instead.)

Renewal and expansion logic — onboarding-driven, not sales-driven

Renewal happens because Year-1 went well. Expansion happens because Year-2 is going well. The customer-success lead does not run a separate sales cycle.

THE RENEWAL CONVERSATION (END OF YEAR 1)

- Customer-success lead emails the teacher's curriculum point-of-contact at Week 32: "Year 1 portfolio review window opens in four weeks. What are you hearing from teachers?"
- The point-of-contact replies with what they're hearing — the good, the rough, the indifferent.
- Customer-success lead schedules a 30-minute renewal conversation. The conversation covers: what worked, what didn't, what to add or subtract, and whether to renew. We make it easy to say no — a polite no is more valuable than a guilty yes that turns into churn.
- Renewal terms are confirmed in an updated Order Form.

THE EXPANSION CONVERSATION (END OF YEAR 2)

- Year-2 teachers are mentoring Year-1 teachers. Some of those mentees are at new grades, new schools, or new sites.
- Customer-success lead identifies the natural expansion edges in Year 2 — the second-grade teacher whose colleague is curious, the OST site coordinator who wants to add a second cohort.
- Expansion is not framed as a sales motion. It's framed as: "the Year-1 cohort is healthy; here's where the next layer fits naturally; here's the support that goes with it."

WHAT EXPANSION DOES NOT LOOK LIKE

- Cold outreach to teachers in adjacent schools without the curriculum point-of-contact's involvement.
- "Limited spots" framing.
- "Year-2 pricing escalates if you don't lock in by [date]" framing.
- Any tactic that would feel manipulative if a teacher told another teacher about it.

The customer-success lead's weekly rhythm

- **Monday morning.** Health-metric dashboard review (PD completion, milestone completion, Family-letter open rate, voice-band drift signals).

ONBOARDING PLAYBOOK

- **Tuesday.** One scheduled check-in per Year-1 teacher cohort; one scheduled check-in per Year-2 mentor pair.
- **Wednesday.** Office hours for any Cash Certified Teacher (drop-in, no appointment).
- **Thursday.** Family-letter review for any teacher who shared a draft.
- **Friday.** End-of-week summary to the Cash to Company team — what's healthy, what's drifting, what one teacher needs that the program doesn't yet provide.

What good looks like at end of Year 1

- 80%+ of Cash Certified Teachers completed the PD.
- 75%+ produced a first Capstone milestone with their students by Week 8.
- 60%+ Family-letter open rate at Quarter 1.
- 50%+ family attendance at the Quarter-2 showcase.
- 85%+ of Year-1 teachers complete a portfolio review.
- 75%+ renewal intent into Year 2.
- Zero voice-band drift incidents that required escalation.
- One first-misconception-correction playback captured per cohort, contributed to the community library.

If those numbers hold, the program is working. If they slip, the customer-success lead names what slipped and brings it back to the Cash to Company team to fix in the next playbook revision.

— Cash to Company is a K-12 entrepreneurship and financial-literacy program. We never promise wealth, never ask about family money, and never sell to kids. Onboarding is the year we earn the renewal. — The Cash to Company team.

One promise.

Onboarding is the year we earn the renewal.

Cash to Company is built so a curriculum coordinator, a foundation officer, a parent, or a teacher can pick up any one of these references and meet the program at full strength on the first page.

No promise of wealth. No probing of family finances. No partisan content. One question, asked patiently for thirteen years: which people, and how do you know?

For educational and operational use. This document is informational and does not constitute financial, legal, or tax advice. Standards alignment is cited per the Cash to Company Standards Alignment Map (Jump$tart, CEE, CCSS, C3, CASEL, NGSS-ETS).
