PRODUCTION NOTES — "WHERE MONEY LIVES"

"You picked this idea. How do you know somebody actually wants it?"

- CASH, GRADE 3

Episode: ML EP10 **Runtime:** 2:45 **Pipeline:** Midjourney (plates) ›› ElevenLabs (voice) ›› Hedra Character-3 (lipsync) ›› Kling Multi-Shot web (motion) ›› Suno (music) ›› ffmpeg (assemble) **Brand band:** K-2 / 3-5 hybrid (CashQuest Kids ages 6–10) **Brand stamp:** "Tool up."

1. HOOK STRATEGY

Cold open beat (first 3 seconds): A lumpy sock under a bed with a coin poking out. No words yet. SFX: tiny dust-puff. Then Cash drops into frame and lands next to the sock with a soft "boing."

Why this hook works for ages 6–10: The sock-bank is a universally relatable kid trope (every kid has hidden money under something). It is concrete, visual, and sets up the joke that pays off twice — once at the open, again at the close when the sock gets a red X.

First Cash line by second 4: "Notice with me. A sock is not a bank." — short, specific, kid-funny, non-moralizing.

2. B-ROLL SUGGESTIONS (VISUAL BEATS CASH SPEAKS AGAINST)

BEAT	B-ROLL PLATE
0:00–0:04	Sock under bed, coin pokes out. Cash drops in.
0:05–0:15	Cash holds the small notebook tilted toward camera (signature Notebook Tilt). Title card: WHERE MONEY LIVES.
0:16–0:30	Three picture bubbles: jar, piggy bank, real bank.
0:31–0:55	Bank exterior — friendly cartoon brick building with a window. Teller waves. Kid + parent silhouette at counter (parent figure visible but face turned slightly — never spotlight a parent).
0:56–1:15	Vault door closes (soft click).
1:16–1:40	A penny grows ONE tiny extra penny on top in slow motion. Word INTEREST appears in big yellow letters.
1:41–2:10	Kenji's planner page: "MY MONEY LIVES IN: ____." Hand draws a jar, writes "JAR — 3 QUARTERS," draws a bank, writes "BANK — pretend $5."
2:11–2:30	PRETEND label glows on screen.
2:31–2:45	Three pictures with stars. Sock gets a red X. CTA poster appears. Cash waves. Vault click on outro.

3. MUSIC VIBE (SUNO)

Prompt brief: Warm, hand-drawn-feeling indie kids' track. Plucky ukulele, light kick, soft shaker. Major key. 90 BPM. No vocals. Sparse — must drop out completely on the "vault click" SFX at 1:00. Returns lightly during the planner section. No music sting on the "interest" reveal — silence carries that line per Cash style guide §9.

Suno tags: `acoustic`, `kids`, `indie folk`, `ukulele`, `gentle`, `playful`, `90bpm`, `no vocals`, `instrumental`, `paper-cutout-feel`.

Mix notes: Music sits at ~–18 LUFS so Bill voice can lead. Duck music to –30 LUFS during the "Big rule. Pretend" beat at 1:55.

4. END-CARD CTA

On-screen text: "Pick one safe place. Draw it. Drop in one pretend coin. Tell a grown-up where your pretend money lives."

Tagline lockup: CashQuest Kids logo + "Tool up." underneath. Soft chime. 1 second. No music sting.

Parent/teacher prompt (caption + community tab): "Tonight: ask your kid where their pretend money lives — jar, piggy bank, or a real bank. Use the word 'safe place.' That's the conversation."

5. SHORTS CUT POINTS (9-SECOND VERTICAL)

0:02	Three pictures pop	"Three safe places."
