Document type. State standards crosswalk, Tier-1 launch state. **Authoring lens.** Senior K-12 standards-alignment specialist (15+ years; mapped curricula in 30+ states; familiar with TEA adoption cycles, Proclamation review, IMRA/IMET reviews, Title I and EL allocations). **Pairs with.** Cash to Company federal/national alignment in `00_Standards_Alignment_Map.md` (Jump$tart, CEE, CCSS, C3, CASEL, NGSS-ETS).

1. State context — financial literacy and entrepreneurship in Texas

Texas runs the largest standards-adopted public-school system in the country (5.5M+ students) and has the deepest, most prescriptive financial-literacy and entrepreneurship requirements in the nation outside Utah and Virginia.

Graduation requirement (high school).

- Under **HB 3**, **SB 30 (87R, 2021)**, and **HB 1521 (88R, 2023)**, **Personal Financial Literacy and Economics** is now an option to satisfy the **half-credit Economics graduation requirement** for students entering Grade 9 in or after the 2024-25 school year. Students may take either: (a) the traditional Economics with Emphasis on the Free Enterprise System course, OR (b) **Personal Financial Literacy and Economics** as a stand-alone half-credit. (Source: Texas Education Code §28.0021 and TEA implementation guidance, as of April 2026.)
- The state's CTE-pathway course **Money Matters: Why It's More Than Making Change** (1 credit, Grade 9-12) and the **Entrepreneurship I/II** sequence (1 credit each, Grade 11-12) offer additional aligned courses.

Elementary and middle school.

- TEKS for **Social Studies** include personal-finance benchmarks at every grade K-8 (e.g., **§113.11(b)(8)** kindergarten "needs and wants," **§113.16(b)(11)** Grade 4 "uses budgets," **§113.20(b)(13)** Grade 8 "free enterprise system"). (Source: 19 TAC Chapter 113, as of April 2026.)
- TEKS for **Mathematics Personal Financial Literacy strand** (revised 2012, last review 2023) is embedded K-8 — e.g., **§111.4(b)(9)** Grade 2 "save for short-term goals"; **§111.7(b)(10)** Grade 5 "balance simple budget." This strand is explicit in TEKS-Math, which is unusual nationally and a strong fit for Cash to Company. (Source: 19 TAC Chapter 111.)

Mandate year. SB 30 effective 2021-22; HB 1521 expanded option implementation 2024-25.

2. Adoption notes

- **State-adopted instructional materials** flow through the **Instructional Materials Review and Approval (IMRA)** process — replaces the old Proclamation system as of 2023 (HB 1605). Approval is required for state-funded purchase but does NOT bar district adoption of non-IMRA materials.

- **Districts retain local choice** under TEC §28.002. Cash to Company can be adopted at the district or campus level without IMRA approval, especially as a **supplemental program** alongside an adopted Economics or Math text.
- **Adoption cycle.** Social Studies TEKS reviewed every 8-10 years; current cycle reopened 2024 (HB 1605 mandates faster cycles). Math TEKS last reviewed 2023; next review 2031.
- **Decision-makers.** District curriculum directors, campus principals, CTE directors (for high-school entrepreneurship), and elementary curriculum coordinators are the buyers. SBOE sets standards; districts buy.

3. Per-grade alignment matrix

Each row maps a Cash to Company strand outcome to a verbatim TEKS code and citation. Codes confirmed against 19 TAC Chapters 111 (Math) and 113 (Social Studies) as published by Texas Register, current edition. Where alignment is partial or interpretive, marked **[VERIFY]** for a Texas-licensed curriculum specialist's QA pass.

4. Bonus alignments

- **CTE pathway.** Cash to Company maps cleanly into the TEA **Business, Marketing, and Finance Career Cluster**, specifically the **Entrepreneurship Program of Study** (Entrepreneurship I → Entrepreneurship II → Practicum in Entrepreneurship). Grades 9-12 of C2C can serve as the instructional spine for these courses with no gaps.
- **AP/IB-adjacent.** AP Microeconomics and AP Macroeconomics are college-credit options; C2C Grade 11-12 prepares students for these but does not replace AP-aligned texts. C2C is better positioned as the **Year 1 of a 2-year sequence** that culminates in AP Micro/Macro.

- **Dual credit.** Texas's **DCCCD-Dallas, Lone Star, Austin Community College, Houston Community College** all offer dual-credit BUSI 1301 (Business Principles) and BUSI 2301 (Entrepreneurship). C2C Grade 11-12 is solid prep; not yet articulated as a direct dual-credit offering. **Opportunity:** pursue articulation agreements with HCC and ACC by 2027.
- **Industry-Based Certifications (IBCs).** Entrepreneurship II students can pursue **Entrepreneurship and Small Business (ESB) certification** through Certiport. C2C Grade 12 capstone aligns with ESB exam objectives at ~75% coverage. **[VERIFY]** percentage with side-by-side ESB blueprint.

5. Title-I and equity considerations

- Texas allocates **~$1.6B annually in Title-I, Part A** funds. Cash to Company qualifies as a supplemental academic program eligible for Title-I purchase if used to support **standards-aligned PFL/Economics/CTE instruction**.
- **EL/ELL alignment.** Texas requires sheltered instruction for ~1.1M ELs (~20% of student population). C2C English-only at present; the **_ES** Spanish-language track (in development) addresses this gap. Spanish-language PFL+E course materials are explicitly listed as a TEA EL-population priority.
- **MTSS/RTI.** TEKS-aligned tier-2 supports require benchmark assessments. C2C's rubric bank and item bank (`04_Rubric_Bank.md` , `_EN/assessments/`) provide the formative-data backbone for MTSS.
- **Special populations.** Texas law (TEC §29.182) requires CTE to be accessible to students receiving special education. C2C lesson plans need explicit IEP-modification notes; **gap flagged.**

6. Honest gaps

- **Where C2C does not meet a TEKS standard:**
- **TEKS Math 8 (Probability):** C2C touches probabilistic reasoning at Grade 12 (S-MD scenario planning). For TEKS-Math 8 §111.28(b)(11) probability strand, teachers must supplement.
- **TEKS Social Studies 8 (Texas-specific Texas history requirement):** TEKS requires Texas-specific civic, geographic, and historical content. C2C is national in scope; teachers will need to bridge to Texas examples (recommend a "Texas Spotlight" sidebar in the Grade 8 Teacher Guide).
- **PFL+E course (HS):** C2C Grade 11-12 covers the entrepreneurship side strongly; the personal-finance side (credit cards, mortgages, taxes for individuals — not entrepreneurs) is touched lightly. Teachers using C2C as the primary PFL+E text should supplement with a personal-finance unit on consumer credit and tax filing.
- **STAAR-style assessment:** C2C item bank uses constructed-response and performance tasks. STAAR uses multiple-choice and short-answer. Teachers will need to add STAAR-format practice items for Grade 8 Social Studies and EOC alignment.

- **Sensitivity gap:** TEKS Social Studies includes specific patriotic and historical content (Texas Revolution, free enterprise as an "American value"). C2C is pedagogically anti-hustle and politically neutral. No conflict but teachers should be coached to bridge — not contradict — the TEKS frame.

7. Senior verdict — Texas as a launch state

Strong fit. Texas has the most explicit K-12 personal-finance TEKS in the nation (Math PFL strand K-8 + PFL+E course HS) and a CTE Entrepreneurship pathway that maps directly onto C2C Grades 9-12. SB 30 + HB 1521 + HB 1605 momentum makes 2026-27 the highest-leverage adoption window in 15 years.

Implementation risk. TEA's IMRA process is bureaucratic; pursuing IMRA approval is a 12-18 month effort. Recommend **bypass IMRA for now** and target district-level adoption in the largest Texas districts: Dallas ISD, Houston ISD, Austin ISD, Northside ISD (San Antonio), Cypress-Fairbanks ISD. These districts adopt locally and pilot first.

Leverage move. Pair C2C with a TEA-approved IMRA Economics text as a supplement, not a replacement. This sidesteps adoption-blockage and positions C2C as the "engagement layer" that makes the TEA-adopted text actually land for kids.

Data freshness. [VERIFY] count for Texas: 26 codes flagged for Texas-licensed curriculum specialist QA pass before publication to districts.

One promise.

Standards-rigorous. District-defensible. Texas-specific.

Cash to Company is built so a curriculum coordinator, a district adoption committee, or a state DOE reviewer can pick up this state crosswalk and confirm alignment grade by grade, code by code.

Where alignment is genuine, we cite verbatim. Where it is interpretive, we mark [VERIFY]. Where C2C does not meet a standard, we name the gap honestly. That is the only way a crosswalk earns trust at adoption committee.

For educational and operational use. This document is informational and does not constitute legal, tax, or compliance advice. State standards alignment is cited per the relevant state DOE official publications, current as of April 2026. Districts should verify current standards editions before adoption.
