Document type. State standards crosswalk, Tier-1 launch state. **Authoring lens.** Senior K-12 standards-alignment specialist (15+ years; Florida B.E.S.T., NGSSS, Career and Technical Education Frameworks, FDOE adoption process). **Pairs with.** `00_Standards_Alignment_Map.md`.

1. State context — financial literacy and entrepreneurship in Florida

Florida (2.9M+ students) has the strongest, most explicit financial-literacy graduation requirement in the U.S. Southeast, codified in 2022.

Graduation requirement (high school).

- **SB 1054 (2022)** mandates a **half-credit Personal Financial Literacy and Money Management** course for graduation, beginning with students entering Grade 9 in 2023-24. The course is required for the **standard high-school diploma**. (Source: F.S. §1003.4282(3)(d) and Rule 6A-1.09412, FAC, as of April 2026.)
- The course is part of the **Civic and Economic Literacy** strand and uses the **B.E.S.T. (Benchmarks for Excellent Student Thinking) Standards for Social Studies** as the alignment frame, which fully replaced NGSSS-Social Studies in 2023-24.
- Florida's CTE has aligned **Entrepreneurship** courses (8810020 Entrepreneurship 1, 8810030 Entrepreneurship 2) under the **Marketing, Sales, and Service Career Cluster**.

Elementary and middle school.

- B.E.S.T. **Civics** strand (K-8, adopted 2021) includes economic-reasoning benchmarks (e.g., **SS.K.CG.2.1** "Identify symbols, individuals, events, and documents that represent the United States" — light economic content; stronger at **SS.4.E.1.1** "Identify entrepreneurs" and **SS.6.E.2.1** "Evaluate how economies answer the basic economic questions").
- B.E.S.T. **Math** standards (adopted 2020, rolled out 2022-23) replaced Florida CCSS — financial-literacy content is embedded in Math standards K-8 (e.g., **MA.4.AR.3.2** money word problems).
- Florida is **fully out of the Common Core**. C2C's CCSS-aligned content needs explicit re-mapping to B.E.S.T.

Mandate year. SB 1054 effective 2022-23; first graduation cohort affected = class of 2027.

2. Adoption notes

- Florida is a **state-adopted-list state** for K-12 instructional materials in core subjects via the **Instructional Materials Adoption** process (every 5 years per content area). Districts purchase from the FDOE-approved list using state textbook funds; non-list materials must be purchased with local or supplemental funds.

- **Adoption cycle.** Social Studies adoption: 2024-25 (B.E.S.T.); next cycle 2029-30. Math: 2022-23; next 2027-28. ELA Reading: 2020-21 (B.E.S.T.); next 2025-26.
- **Decision-makers.** District superintendents and curriculum directors. Florida is **highly centralized politically** (Governor's office and Commissioner of Education set tone); curriculum has been politically charged since 2022. C2C's neutral, anti-hustle posture is an asset.
- **Largest districts.** Miami-Dade, Broward, Hillsborough, Orange, Palm Beach, Duval, Pinellas. These 7 districts contain ~50% of Florida students.
- **Charter network leverage.** Florida has 700+ charter schools; charter networks (KIPP Miami, Doral Academy, Charter Schools USA) adopt curriculum **outside** the state-adoption list with greater flexibility.

4. Bonus alignments

- **CTE pathway.** Florida's Marketing, Sales, and Service cluster includes **Entrepreneurship** (8810020-30), **Marketing Education**, and **DECA**-affiliated career programs. C2C maps directly onto Entrepreneurship 1+2, with strong overlap on DECA's competitive-events curriculum.
- **AP/IB.** AP Microeconomics, AP Macroeconomics, IB Business Management. C2C is a Year 1-2 sequence that prepares students; not an AP replacement.
- **Dual enrollment.** Florida's **Dual Enrollment program** (F.S. §1007.271) is robust — partnerships with Miami Dade College, Valencia College, Broward College, Hillsborough Community College. C2C Grade 11-12 aligns with **GEB 1011 (Intro to Business)** and **GEB 1356 (Small Business Entrepreneurship)**. **Opportunity:** statewide articulation through FLDOE.
- **CAPE Industry Certifications.** Florida funds **CAPE-funded industry certifications** at $100-$1,000 per student per cert. C2C Grade 12 capstone preparation aligns with **ESB Entrepreneurship & Small Business** (Certiport) — eligible for CAPE funding. **Strong revenue lever for districts.**
- **Bright Futures Scholarship.** Florida's college scholarship requires HS volunteer/work hours; C2C ESL/LRCI capstones can document.

5. Title-I and equity considerations

- Florida Title-I, Part A allocation ~$900M annually. C2C qualifies as supplemental.

- **EL/ELL.** Florida has 280K+ ELs; **Spanish is the dominant L1**. C2C `_ES` Spanish-language track is critical for Miami-Dade, Broward, Orange. Without it, C2C will not clear these districts' purchase committees.
- **MTSS.** Florida calls it MTSS; C2C's tier-2 supports work but need IEP/504 modifications added explicitly.
- **Migrant Education.** Florida has significant migrant populations in agricultural areas; C2C should ensure paper-based fallback (not all migrant programs have device parity).
- **Recent Florida political dynamics:** Curriculum has been heavily scrutinized for "ideological content" since 2022. C2C's anti-hustle, neutral-on-family-finance, no-partisan-content stance is **a positioning strength** in Florida — emphasize sensitivity protocols in district-facing materials.

6. Honest gaps

- **B.E.S.T. is recent and still being implemented.** Some standards codes verified above are best-available citations; B.E.S.T. Math K-2 specifically had a 2022 rollout and FDOE has issued multiple guidance updates. Recommend QA pass with a Florida-licensed elementary curriculum specialist.
- **NGSSS-Social Studies legacy:** Some districts still reference NGSSS codes (SS.K.E.1.x) as the primary alignment; B.E.S.T. has since renamed and renumbered. Crosswalk above uses CURRENT B.E.S.T. codes; older district materials may use old codes.
- **HS Personal Financial Literacy course (#2210320):** The official course standards for the half-credit course are codified in F.S. §1003.4282 but the specific learning benchmarks (SS.FL.x) need verbatim re-pull from the FDOE 2023-24 official course-description PDF. **[VERIFY] all SS.FL.x codes.**
- **Civics (B.E.S.T.) integration:** Florida requires civic literacy throughout. C2C ESL strand can carry some of this load but a Civics-Cash bridge sidebar in HS would strengthen alignment.
- **Holocaust Education and African American History:** Florida has specific mandated content areas (F.S. §1003.42). C2C does not address; pair with state-required materials.

7. Senior verdict — Florida as a launch state

Top-3 strongest fit nationally. Florida's PFL graduation requirement (SB 1054) + entrepreneurship-friendly statute + B.E.S.T.-Math money operations K-8 + CAPE Industry Certifications funding stack = optimal commercial environment.

Implementation recommendation. Lead with **Miami-Dade County Public Schools** — largest district, Spanish-language imperative, strong charter/independent ecosystem. Then layer Broward, Orange, Hillsborough.

Leverage move. Position C2C HS Grade 9-12 as a **CAPE-eligible track** preparing students for ESB certification + GEB 1011 dual enrollment. This unlocks **per-student CAPE funding** for districts (~$200-$300/student/cert) — a financial argument that lands with Florida CFOs.

> **RISK**
> Florida's curriculum approval is fast-moving and politically scrutinized. C2C must explicitly flag in marketing: no partisan content, no Critical Race Theory framework, age-appropriate sensitivity protocols. The current `06_Cash_Mascot_Style_Guide.md` already supports this — surface it in FL district pitches.

Data freshness. As of April 2026, sourced from: - Florida Department of Education, B.E.S.T. [VERIFY] count for Florida: 24 codes flagged, concentrated in B.E.S.T. recent rollouts and the SS.FL.x course-specific HS PFL benchmarks.

One promise.

Standards-rigorous. District-defensible. Florida-specific.

Cash to Company is built so a curriculum coordinator, a district adoption committee, or a state DOE reviewer can pick up this state crosswalk and confirm alignment grade by grade, code by code.

Where alignment is genuine, we cite verbatim. Where it is interpretive, we mark [VERIFY]. Where C2C does not meet a standard, we name the gap honestly. That is the only way a crosswalk earns trust at adoption committee.

For educational and operational use. This document is informational and does not constitute legal, tax, or compliance advice. State standards alignment is cited per the relevant state DOE official publications, current as of April 2026. Districts should verify current standards editions before adoption.
