04 Notes for curriculum users /

> Cash teaches kids to be clearer thinkers about money - no matter what they end up doing for a living.

Program: Cash to Company — combined entrepreneurship + financial literacy curriculum, grades K–12 Host: Cash, an animated mascot who introduces concepts via short videos at the top of each unit Architecture: 13 grade levels (K–12) × 8 program strands, with one specific, measurable learning outcome per cell

Reading the spine

The eight strands are vertical (run K–12). The grade themes are horizontal (one per year). Every cell is a single learning outcome — what a student in that grade and that strand can demonstrably do by year's end. Outcomes are measurable: the verb tells you what the assessment looks like.

The eight strands:

1. **BAVC — Business awareness and value creation**
2. **PSIG — Problem solving and idea generation**
3. **MFL — Money and financial literacy**
4. **CBM — Customers, branding, and marketing**
5. **OSO — Operations, systems, and organization**
6. **LTO — Leadership, teamwork, and ownership**
7. **ESL — Ethics, safety, and legal awareness**
8. **LRCI — Launch readiness and continuous improvement**

Grade themes (year anchors):

Grade	Theme
K	Businesses help people
1	Businesses make things or do things
2	Businesses solve problems
3	Business ideas come from skills, hobbies, and needs
4	Businesses need a simple plan
5	Money, pricing, and profit
6	Businesses need systems and roles
7	Know your customer
8	Measure, improve, and operate smarter

Grade	Theme
9	Entrepreneurship is organized problem-solving
10	Ownership structure, money, and compliance
11	Leadership, sales, and execution
12	Launch-ready entrepreneurship

The Grid (13 × 8)

KINDERGARTEN — "BUSINESSES HELP PEOPLE"

Strand	Outcome (by end of K)
BAVC	I can name three businesses in my community and tell one way each business helps people.
PSIG	I can describe a problem someone has (e.g., wet feet in the rain) and name one thing a business could make or do to help.
MFL	I can identify a penny, nickel, dime, and quarter, and tell which is worth more in a pair.
CBM	I can match a business sign or logo (pizza shop, dentist, fire station) to what that business does.
OSO	I can put three pictures of "making a sandwich" in the right order.
LTO	I can take turns being the "shopkeeper" and the "customer" in classroom dramatic play and use kind words for both roles.
ESL	I can name one safety rule for a worker (helmet, hand-washing, walk don't run) and tell why it matters.
LRCI	I can finish a small classroom job (passing out napkins for "Cash's Cafe") and tell whether I did it the way it was supposed to be done.

GRADE 1 — "BUSINESSES MAKE THINGS OR DO THINGS"

Strand	Outcome (by end of 1)
BAVC	I can sort five businesses into "makes a thing" or "does a thing" and explain my sort.
PSIG	I can list three things people in my home need done and circle one that a business could do for money.
MFL	I can count a mixed group of coins up to 50 cents and tell whether I have enough to buy a 30-cent item.

Strand	Outcome (by end of 1)
CBM	I can draw a sign for a pretend lemonade stand that shows the name, what is sold, and the price.
OSO	I can follow a 4-step recipe card (e.g., trail mix) and tell a partner each step in order.
LTO	I can play the "customer" or "worker" role in a classroom store and say one thing my partner did well.
ESL	I can tell whether a "promise" was kept (in a story) and explain why keeping promises matters in business.
LRCI	I can show a finished classroom product (a bookmark I made) to the class and say one thing I would change next time.

GRADE 2 — "BUSINESSES SOLVE PROBLEMS"

Strand	Outcome (by end of 2)
BAVC	I can identify a problem (e.g., spilled juice, lost mittens) and name a business that already solves a problem like it.
PSIG	I can fill out a "Problem → Idea" card (problem in my school + one idea to fix it) and share it with a partner.
MFL	I can make change from a dollar for an item that costs less than a dollar, using coins.
CBM	I can draw a "sign that helps customers" (open/closed, line forms here, today's special) and explain why it helps.
OSO	I can use a checklist to set up a "store" station and check off each step as I go.
LTO	I can identify "the boss," "the worker," and "the customer" in a classroom skit and say what each one does.
ESL	I can tell whether something in a story was "fair to the customer" and give a reason.
LRCI	I can ask one classmate "what would you change?" about a product I made, and write down what they said.

GRADE 3 — "BUSINESS IDEAS COME FROM SKILLS, HOBBIES, AND NEEDS"

Strand	Outcome (by end of 3)
BAVC	I can complete a "Skills + Hobbies + Needs I See" web with at least 3 entries each, and circle two business ideas it suggests.
PSIG	I can generate at least 5 business ideas from a single problem prompt and pick the most "real-sounding" one with a reason.

Strand	Outcome (by end of 3)
MFL	I can calculate cost, revenue, and profit for a simple lemonade-stand scenario with whole-number prices.
CBM	I can draw a logo and choose a name for my business idea and tell what each communicates to a customer.
OSO	I can list the 4–6 steps of running my business idea (open, sell, restock, close, count, clean) in order.
LTO	I can take a role (CEO, designer, money keeper, sales) on a 3-person team and describe what my role does.
ESL	I can tell whether a business example is honest or misleading (e.g., "100% juice" vs. "juice drink") and give one reason.
LRCI	I can describe one thing a "first try" business got wrong in a Cash story, and one fix the entrepreneur made.

GRADE 4 — "BUSINESSES NEED A SIMPLE PLAN"

Strand	Outcome (by end of 4)
BAVC	I can read or watch a short business profile and summarize what the business does, who it helps, and how it makes money in 3–5 sentences.
PSIG	I can take an idea and run it through a 5-question "Reality Check" (Who buys? How much? How many? What does it cost me? What's left?) and write reasonable estimates.
MFL	I can fill in a 1-page budget for a small classroom event with at least 4 categories that does not exceed a $50 cap, showing all subtotals.
CBM	I can write a 1-sentence "this is for ___ who needs ___" customer statement for my business idea.
OSO	I can build a 1-page business plan template (idea, customer, price, costs, plan) and complete it for one idea.
LTO	I can run a 5-minute team meeting using a 3-item agenda (last week, this week, blockers) with my role assigned.
ESL	I can list 3 rules a kid-run business should follow (honesty about ingredients, safety with food, asking adult permission, age limits on labor) and pick the most important one with a reason.
LRCI	I can compare a "before" and "after" version of my plan and circle three changes I made and why.

GRADE 5 — "MONEY, PRICING, AND PROFIT"

Strand	Outcome (by end of 5)
BAVC	I can explain in writing how a real business creates value — what they make/do, who pays, and why someone is willing to pay.
PSIG	I can take three problem prompts and run each through brainstorm → cluster → vote, ending with one chosen idea with reasons.
MFL	I can calculate unit cost, set a price using a target margin (e.g., 40%), and predict total profit at multiple sales volumes.
CBM	I can write a 30-second "elevator pitch" for my business idea that names the customer, the problem, and the price.
OSO	I can use a simple inventory tracker (start, sold, ending, restock) for a one-day classroom market and explain a discrepancy.
LTO	I can rotate through 3 jobs (CEO, marketer, money keeper) across a multi-day project and write what I learned in each.
ESL	I can read a kid-aimed ad and identify at least 2 persuasive techniques (scarcity, bandwagon, authority) with examples.
LRCI	I can run a "post-market debrief" answering "what worked / what flopped / what I'd change" with at least 2 specific items each.

GRADE 6 — "BUSINESSES NEED SYSTEMS AND ROLES"

Strand	Outcome (by end of 6)
BAVC	I can map a business's "value chain" — supplier → producer → seller → customer — for one real business with at least one example at each stage.
PSIG	I can use the "5 Whys" technique on a business problem (e.g., "we sold less today") to find a possible root cause, written out.
MFL	I can build a one-month income/expense ledger for a hypothetical 12-year-old's small business with a savings rate goal expressed as a percentage.
CBM	I can identify the customer "segment" my product serves and describe at least 3 things I know about that segment (age, where they hang out, what they care about).
OSO	I can write a Standard Operating Procedure (SOP) for a 5-step process in my business (e.g., "how to take an order") with checks for each step.
LTO	I can fill out a RACI chart (Responsible, Accountable, Consulted, Informed) for a 4-task project with a 4-person team.

Strand	Outcome (by end of 6)
ESL	I can identify whether a business action is "legal but sketchy," "fully fine," or "over the line" using 3 example cases, and defend my call.
LRCI	I can run a weekly "stand-up" review with 3 prompts (Did → Doing → Stuck) for two consecutive weeks and adjust my plan once.

GRADE 7 — "KNOW YOUR CUSTOMER"

Strand	Outcome (by end of 7)
BAVC	I can compare two real businesses targeting the same age group, identify what each gets right about the customer, and recommend one improvement for each.
PSIG	I can draft a problem statement in the form "[Customer] struggles with [problem] when [context], because [cause]" using interview evidence, not assumptions.
MFL	I can calculate per-customer revenue, cost of acquisition (proxy), and contribution margin for a small business scenario, and explain why all three matter.
CBM	I can build a one-page "customer persona" with a name, demographic detail, daily routine, top 3 frustrations, and 3 channels where I could reach them.
OSO	I can design a 1-week customer feedback system (a 3-question survey + a 1-question post-purchase prompt) and report what I learned.
LTO	I can lead a 10-minute team huddle in which I assign one customer-research task to each teammate and follow up the next day.
ESL	I can apply a 4-point "fair to the customer" check (clear claim, honest price, real reviews, easy returns) to a real or fictional product page.
LRCI	I can compare my "Day 1 customer assumptions" to "Day 30 customer evidence" and revise my product/messaging in 3 specific ways with reasons.

GRADE 8 — "MEASURE, IMPROVE, AND OPERATE SMARTER"

Strand	Outcome (by end of 8)
BAVC	I can analyze a business case (1–2 pages) and identify which of three "value levers" (better product, lower price, better experience) it pulled and how.
PSIG	I can run a structured ideation flow (problem → 10 ideas → 3 finalists → 1 selected) using at least 2 named techniques (SCAMPER, "How Might We").
MFL	I can build a simple break-even calculator (units × price = fixed + variable × units) and use it to find break-even volume for a sample business.

Strand	Outcome (by end of 8)
CBM	I can run a 3-day mini-marketing test (two posters, two messages) and report which performed better, by what measure, and what I'd do next.
OSO	I can build a 4-week project plan with milestones, owner, and deadline; track actuals vs. plan; and write a 1-page variance explanation.
LTO	I can give and receive a structured peer feedback round using "What's working / What's confusing / One change I'd try" — both directions.
ESL	I can identify one privacy risk and one safety risk in a kid- or teen-run online business and write a 3-step mitigation plan for each.
LRCI	I can complete a Plan–Do–Study–Act (PDSA) cycle on one part of my business and document the change, the result, and the next test.

GRADE 9 — "ENTREPRENEURSHIP IS ORGANIZED PROBLEM-SOLVING"

Strand	Outcome (by end of 9)
BAVC	I can map a Business Model Canvas for a real venture (9 boxes: customers, value prop, channels, relationships, revenue, key activities, resources, partners, costs) with evidence in each.
PSIG	I can run a customer-discovery cycle with 5 real interviews (or recorded surrogates), code the patterns, and write what changed in my hypothesis.
MFL	I can build a simple one-year P&L (income statement) for a venture with revenue, COGS, gross margin, operating expenses, and net income.
CBM	I can write a positioning statement using the form "For [target] who [need], [product] is the [category] that [unique benefit] because [reason]."
OSO	I can break a venture into 3–5 functional areas, write objectives for each, and identify dependencies between them.
LTO	I can identify my own conflict-handling style (avoid, accommodate, compete, compromise, collaborate) and pick one I want to improve, with a plan.
ESL	I can identify which of these apply to a venture: business license, sales tax, ID-required products, age limits, PII protection — and what to do about each.
LRCI	I can run a 2-week MVP test with a defined "what would have to be true" success metric, and write a kill/iterate/scale recommendation.

GRADE 10 — "OWNERSHIP STRUCTURE, MONEY, AND COMPLIANCE"

Strand	Outcome (by end of 10)
BAVC	I can explain the difference between a hobby, a side hustle, a small business, and a startup, using 4 real-world examples with evidence.
PSIG	I can take an idea and stress-test it with a "premortem" (assume it failed in 1 year — list every reason) and rank the top 3 risks.
MFL	I can compare three ownership/funding sources (bootstrap savings, small loan, friends-and-family) using interest, control, and risk as criteria — and recommend one for a sample business.
CBM	I can build a 1-page brand guide (name, tagline, two-color palette, one font, one voice rule) for my venture and explain each choice.
OSO	I can complete a basic operating agreement template (roles, decisions, money handling, exit) for a 2-person teen partnership and explain each clause.
LTO	I can draft a 1-page vision statement for my venture, defend it in a 3-minute pitch, and capture pushback into a revision list.
ESL	I can identify the right business structure (sole prop, LLC) for a sample venture using cost, liability, and complexity, and explain why.
LRCI	I can run a "month in review" using 5 metrics (revenue, customers, cost, time spent, satisfaction) and propose two changes for next month.

GRADE 11 — "LEADERSHIP, SALES, AND EXECUTION"

Strand	Outcome (by end of 11)
BAVC	I can analyze a successful local business (interview or case study) and identify three decisions that drove its growth.
PSIG	I can take a stalled venture (mine or a case) and produce a 5-experiment "growth backlog" with hypothesis, test, and metric for each.
MFL	I can build a 12-month cash flow forecast (cash in, cash out, ending cash) and identify the month where cash gets tightest, with a fix.
CBM	I can run a structured sales conversation (open, discover, present, handle one objection, close) in a role-play and self-score against a rubric.
OSO	I can use a project management tool (board-style or list-style) to manage a 6-week venture sprint with weekly check-ins and demo days.
LTO	I can lead a 3-person team through a 4-week project with a written team charter, weekly 1:1s, and a final retrospective.

Strand	Outcome (by end of 11)
ESL	I can identify and apply 3 ethical guardrails (truthful claims, healthy work hours, no deceptive pricing) and write a "no-go" list for my venture.
LRCI	I can deliver a 5-minute investor-style pitch with traction slide, ask, and "what we learned" — and incorporate panel feedback into a revision.

GRADE 12 — "LAUNCH-READY ENTREPRENEURSHIP"

Strand	Outcome (by end of 12)
BAVC	I can deliver a portfolio defense in which I explain the businesses I would and wouldn't start, with reasons grounded in market, fit, and capital.
PSIG	I can produce a "founder's journal" (10+ entries) showing my idea evolution, evidence collected, and one pivot with the reasoning behind it.
MFL	I can build a complete startup financial pack (P&L, cash flow, balance sheet sketch, runway, unit economics) and walk a non-finance adult through it.
CBM	I can launch a venture (or convincing simulation) with a working brand, website/landing page, and at least 5 real customer interactions.
OSO	I can write and follow a 90-day operating plan with weekly priorities, owner, and metrics, and report variance honestly.
LTO	I can write a "founder's leadership statement" with values, decision rules, and the kind of teammate I aim to be — and present it.
ESL	I can produce a 1-page legal/ethical checklist for my venture (registration, sales tax, terms of service, privacy, payment safety) and confirm what's done.
LRCI	I can produce a final "Launch or Learn" decision for my Capstone venture with evidence, alternatives, and a personal next step (start, shelve, transfer).

How the strands grow across years (vertical view)

For teachers and curriculum coordinators, here is the spine of each strand top-to-bottom:

BAVC — BUSINESS AWARENESS AND VALUE CREATION

K: Businesses help people → 1: Make/do things → 2: Solve problems → 3: Skills/hobbies/needs → 4: Reading a business profile → 5: Explaining value → 6: Value chain → 7: Compare two competitors → 8: Value levers → 9: Business Model Canvas → 10: Hobby/side hustle/business/startup → 11: Local business case study → 12: Portfolio defense.

PSIG — PROBLEM SOLVING AND IDEA GENERATION

K: Notice a problem → 1: Match home needs to businesses → 2: Problem-Idea card → 3: Generate 5 ideas → 4: Reality-check questions → 5: Brainstorm/cluster/vote → 6: 5 Whys → 7: Problem statement from interviews → 8: SCAMPER + How Might We → 9: Customer discovery → 10: Premortem → 11: Growth backlog → 12: Founder's journal.

MFL — MONEY AND FINANCIAL LITERACY

K: Coin recognition and value comparison → 1: Counting to 50¢, comparing to price → 2: Make change from $1 → 3: Cost/revenue/profit → 4: Event budget under cap → 5: Pricing with a margin → 6: Income/expense ledger with savings rate → 7: Per-customer revenue + contribution margin → 8: Break-even calculator → 9: One-year P&L → 10: Funding source comparison → 11: 12-month cash flow forecast → 12: Full startup financial pack.

CBM — CUSTOMERS, BRANDING, AND MARKETING

K: Match logo to function → 1: Sign with name/item/price → 2: Customer-helper signage → 3: Logo + name → 4: 1-sentence customer statement → 5: 30-second pitch → 6: Customer segment description → 7: Customer persona → 8: 3-day mini A/B test → 9: Positioning statement → 10: 1-page brand guide → 11: Sales conversation → 12: Brand + landing + 5 real conversations.

OSO — OPERATIONS, SYSTEMS, AND ORGANIZATION

K: Sequence 3 steps → 1: Follow a 4-step recipe → 2: Setup checklist → 3: Run-of-day list → 4: 1-page plan template → 5: Inventory tracker → 6: SOP for a 5-step process → 7: Customer feedback system → 8: 4-week project plan → 9: Functional breakdown → 10: Operating agreement → 11: Sprint board → 12: 90-day operating plan.

LTO — LEADERSHIP, TEAMWORK, AND OWNERSHIP

K: Take turns in dramatic play → 1: Customer/worker role-play → 2: Identify boss/worker/customer → 3: Take a role on a 3-person team → 4: Run a 5-minute meeting → 5: Rotate roles + reflection → 6: RACI chart → 7: Lead a 10-minute huddle → 8: Peer feedback round → 9: Conflict-style awareness → 10: Vision statement + pitch → 11: 4-week team lead → 12: Founder's leadership statement.

ESL — ETHICS, SAFETY, AND LEGAL AWARENESS

K: Worker safety rule → 1: Promises kept → 2: Fair to the customer → 3: Honest vs. misleading → 4: Kid-business rules → 5: Persuasive techniques in ads → 6: Legal/sketchy/over-the-line → 7: 4-point fair-to-customer check → 8: Privacy + safety risk plan → 9: Licensing, tax, ID, age, PII → 10: Sole prop vs. LLC → 11: Ethical guardrails + no-go list → 12: Legal/ethical checklist.

LRCI — LAUNCH READINESS AND CONTINUOUS IMPROVEMENT

K: Finish one classroom job → 1: One thing I'd change → 2: Ask one classmate → 3: First-try lessons in a Cash story → 4: Plan revision diff → 5: Post-market debrief → 6: Weekly stand-up →

7: Day 1 vs. Day 30 revision → 8: PDSA cycle → 9: 2-week MVP test → 10: Month in review → 11: Pitch revision → 12: Launch or Learn decision.

Notes for curriculum users

- **One strand outcome per grade is the floor, not the ceiling.** Strong students often exceed the strand outcome and can be pushed further within the same year theme.
- **Strands are reinforcing.** A Grade 7 customer persona (CBM) feeds the same year's customer feedback system (OSO) and ethics check (ESL). Plan units to braid 3–4 strands rather than teach them in isolation.
- **Cash's 8 yearly videos thread the strands.** Each year, the eight short videos roughly map to the eight strand outcomes, anchoring the abstract idea before students try it themselves.
- **Outcomes are designed to be assessable in the classroom in a single session or a 2–3 day mini-arc.** No outcome requires a yearlong project to demonstrate.
- **Sensitivity reminder.** Outcomes use neutral phrasings — "for a hypothetical 12-year-old," "for a sample business" — to avoid surfacing private home finance.

One promise.

Cash teaches kids to be clearer thinkers about money - no matter what they end up doing for a living.

Cash to Company is built so a curriculum coordinator, a foundation officer, a parent, or a teacher can pick up any one of these strategic references and meet the program at full strength on the first page.

No promise of wealth. No probing of family finances. No partisan content. One question, asked patiently for thirteen years: which people, and how do you know?

For educational and operational use. This document is informational and does not constitute financial, legal, or tax advice. Standards alignment is cited per the Cash to Company Standards Alignment Map (Jump$tart, CEE, CCSS, C3, CASEL, NGSS-ETS).
